

FIRST STREET IS DISCUSSED

City Attorney Asks for Time
and is Given One Week
to Make Report

City Attorney John W. Stetson last night asked the City Council for one week's time in which to render an opinion in the matter of opening First street. His request was granted but not, however, without some discussion on the part of the councilmen.

Stetson stated that the legal aspect of the question was not as simple as it seemed.

"When Mr. McElroy was city attorney," said Stetson, "he rendered an opinion that the city had substantial rights there, but he did not go into the question what those substantial rights were. I agree with Mr. McElroy but would like at least another week to investigate the records before giving a final opinion. I wish to be in the same position to the effect that I would be to a private client, that is, he able to give the best advice I have."

President Pendleton asked if there were any objection to the matter going over one week.

Councilman Cobbledick suggested that there were several persons present who had been invited to speak on the matter. He asked that they be given a hearing at this time.

Attorney A. P. Leach, representing the Sunbeam Lumber company, made a few remarks.

Councilman Vose stated that he was in favor of proceeding with a suit of ouster immediately but inasmuch as the city attorney had requested a week's continuance he would not press the matter at this meeting of the Council.

Councilman Cobbley first stated that he was opposed to the matter going over one week. "I have looked into it and after I for one am opposed to procrastination. However, if Mr. Stetson wishes the extra week, there is nothing to do but give it to him."

With the understanding that the matter would be definitely disposed of at the meeting of the City Council to be held next Monday night the continuance of a week was granted by the unanimous consent of the Council.

A queer thing about the files you tell is how brazen they seem when you hear somebody else tell the same ones.

Stomach Ache and Diarrhoea

Eating green vegetables and unripe fruit, sudden changes in weather, excessive heat, gulping down iced drinks, etc., cause stomach ache, cramps and dysentery. This causes a great deal of discomfort and suffering, and sometimes death.

In any case of this kind you will find Duffy's Pure Malt Whiskey a sure and quick remedy. A teaspoonful in a half glass of milk every hour will bring instant relief.

Mrs. Freeman Vigorous at 114.

In an interview with Mrs. Campbell, who lives at Red Bank, Pa., and who is the daughter of Mrs. Freeman (114 years of age), she stated: "My mother has been using Duffy's Pure Malt Whiskey and is anxious to have me tell you that she felt its strengthening effects at once. We know that it has done her a great deal of good. She is 114 years of age, and needs something to sustain her strength. She thinks it is a great stimulant, and no old person should be without it. I myself, know what she says about your medicine is the truth."

The section then provides for the approval of this estimate by the superintendent of schools and then for the levying of the tax by supervisors; the fund to be thus derived to be called the special school fund of — school district. This means that the estimate by the board of education should be filed with the county superintendent within ten days before the first of September.

"The Oakland charter, section 114, subdivision 6, provides for a similar estimate to be filed by the board of education with the city auditor on the last Monday of July of each year and the auditor is required by section 131 for the last Monday in August in each year to transmit this with other estimates to the City Council, and section 136 requires the Council to fix the tax rate on or before the first Monday in October.

Question of Law

The last question presented by your letter asks for effect, is Section 1340, or the "tax" of the City Charter to be followed? It would seem that Section 1340 of the Political Code aims to provide for a uniform system of levying taxes in a school district in addition to the taxes defined by the State and County laws.

That the city engineer be directed to prepare a resolution of intention for levying, etc., on the city, Nickelodeons and penny arcades will be placed under the jurisdiction of the board of public works by the new measure so as to permit of the reversion of their license in event they are conducted viciously or immorally.

That the necessary field and office work, including the surveying and establishing grades for park sites between Lake Shore avenue and Ohio street, College and Prince street, be adopted.

That the city engineer be directed to make all necessary field and office work, including the surveying and establishing grades for park sites between Lake Shore avenue and Ohio street, College and Prince street. Adopted.

That the necessary field and office work, including the surveying and establishing grades for park sites between Lake Shore avenue and Ohio street, College and Prince street. Adopted.

That the necessary field and office work, including the surveying and establishing grades for park sites between Lake Shore avenue and Ohio street, College and Prince street. Adopted.

GREEK LETTER ORDERS ARE VIOLATING LAWS

Students in High School Said to Be Secretly Seeking Members

INQUIRY STARTED BY SUPERINTENDENT BUNKER

Those Found Guilty Will Be Summarily Dismissed. Declare the Officials

BERKELEY, Aug. 17.—Suspecting that certain fraternities in the high school are violating the orders of the Board of Education, asking that all students withdraw from these organizations and secretly "rushing" for new members since the opening of the school, Superintendent S. J. Baker and Principal James have issued an investigation and are preparing to deal drastic punishment to offenders.

Nearly a dozen of the most prominent nobles in the school have been up before the officials within the last three days and questioned closely concerning reports that they were seeking candidates for the Sigma Pi Fraternity. Among the students who are examined are: Brevard Sinclair, the football manager; his brother, Melvyn, the basketball manager; Oscar Steel, a prominent track man; Ray Whiting, a bell-leader; Elmer Bent and Herman Reed, members of the swimming team; R. Bellantyne and Carlos Mitchell, members of the baseball team, and John Evans.

The suspicions of the authorities have been directed to this fraternity ever since the order went into effect by the school board forbidding Greek letter organizations. On last Saturday night the members of the society gave a dance in the Mills Club House, and there were rumors about the school yesterday that some secret pledging of new candidates was in progress.

The examination of the students was secret, and Principal James said this morning that it would be continued and that an investigation into the doings of every society and fraternity in the school would be made.

Fraternities Tabooed

These organizations have been tabooed since October 1st last, when the school board passed a resolution forbidding any certificate for admission to the university to any student who retained membership in them.

Secret Pledging

This was really the beginning of the campaign which is now state wide against Greek letter societies in any preparatory school in the state. Superintendent Bunker at the time declared that he would root out these organizations, that they were a menace to the students and developed and provoked much trouble and the bad spirit among the students. He was backed by the school and although attempts appeared before the board, protesting against such precipitate action, Bunker carried his point and even threatened that he would since been obliged to sign a pledge that he will abstain from active membership in any Greek letter society.

Will Be Dismissed

The report that these organizations were still quietly seeking membership has been a sore spot in the school and has set the school board in the ears. It is probable that every former member of the tabooed organizations will be closely questioned by Bunker and James, and if any of them have been found violating the anti-fraternity order they will be summarily dismissed.

Liberati and His Band Are Here

Famous Director Arrives From Seattle With Seventy Musical Artists

Alessandro Liberati, with his seventy musicians and singers, who are to appear in Idora Park for the next eight days, arrived in Oakland early this morning, coming direct from Seattle. The entire organization, consisting of the band and test and tour the big band from the properties. Director Liberati expressed himself as being delighted with the arrangements for the musicals at the park, beautiful and very congenitally enthusiastic over the new band shell. It is, without doubt, one of the handsomest I have ever had the pleasure to play in, said he, adding, "I am sorry our engagement is to go so limited."

Has Opera Company

Included in the big organization which bears his name is Liberati's own opera company, which will give selections from famous operas at every concert. Director Liberati stated that the opera company has proved to be one of the most popular in the country, and that it opens for 10 cents never fails to make an impression, and thousands of lovers of operatic music from every part of the bay will surely come to listen during the eight days of Liberati.

The instrumental soloists with Liberati rank among the highest in the land, and the programs promise some treats for the patrons of the home of good music.

New Concessions

A number of new fun producers are rapidly nearing completion, and will be opened before the inauguration of the new year. The Joyland, which opened its doors for washing on Sunday, and the bands of merrymakers enjoyed being lauded.

The practical showmen will be ready for business before the end of the week.

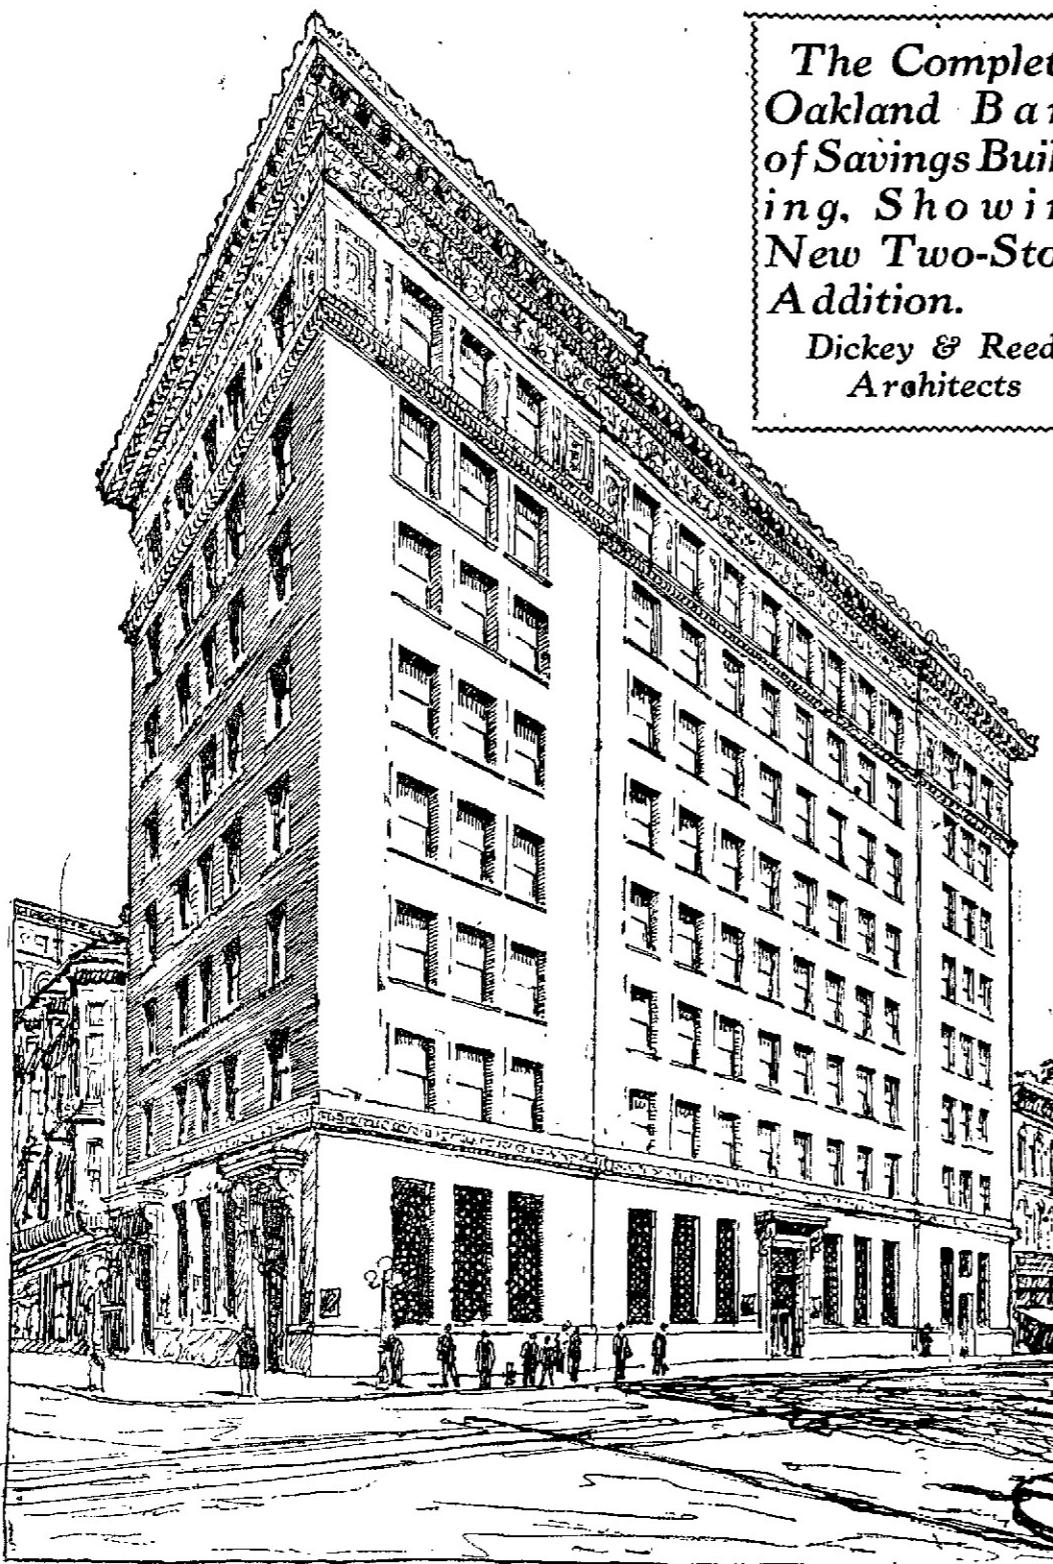

Congressmen Are On Way to Hawaii

OGDEN, Aug. 12.—A congressional party of twenty-five statesmen from the East will arrive in Ogden on Sunday afternoon en route to San Francisco and the Hawaiian Islands. The party is headed by Hon. J. B. McClellan. Many of the congressmen are accompanied by their wives. They are traveling in a special car.

Schroeder's Fleet Works in Rough Sea

NORFOLK, Va., Aug. 17.—In a high wind and a heavy swell, Rear Admiral Schroeder's battleship fleet was today still engaged on the southern dell grounds off this coast in preliminary target work.

Thrown Off Car; Skull Fractured

Inquest to Be Held Today Into Death of Miss Myrtle Terry

(Continued From Page 1.)

catching the girls unaware, and they lost their balance.

Superintendent Potter declares that the car was running only at ordinary speed and that the reports that the switch was defective or that the car had been delayed were not true.

Miss Myrtle Terry, the dead girl, was sitting at the extreme forward end of the car, and her sister close beside her. Both were pitched from their seat at the same instant and in the same fashion to the street.

There is a curb at the side of the switch and both rolled into it helpless. All about are numerous concrete stumps and other irregularities of a newly made street. The cars coming south from the county line make high speed and the impetus of rounding the switch, except speed is reduced, is declared to be fraught with danger to people riding on the outside seats.

Vigorous Protest

The body of Miss Myrtle Terry is at the morgue in Berkeley awaiting the inquest which will be held today. Miss Elsie Terry, eighteen years of age, who accompanied the deceased on the fatal trip, was this morning removed to the family residence on Seventh street. She sustained lacerations on the head, but her injuries are not thought to be serious.

According to the story related by the mother of Miss Myrtle Terry, the girls left their home at 8 o'clock last evening for a car ride which was to have terminated at the end of the couplet line. They had made up their minds that they would not stop in the car but would remain seated.

It was a pleasure trip. Miss Myrtle, who was a former student at the Durant school was employed by the A. W. Hieber Company as a maker of drapes. She was very popular with her fellow workers because of her sweet, amiable disposition. She was very tall for her age. Miss Elsie graduated from the Lincoln grammar school of this city.

The dead girl is survived by Milton J. Terry, Marion D. Terry and Jean Hansen.

COURTS ADJOURN IN HONOR OF THE DEAD

SAN FRANCISCO, Aug. 17.—A number of Superior Courts were adjourned today out of respect to the memory of Frank G. Drury, lawyer and assistant attorney of this city and a well known member of the Bar Association.

The funeral of the lawyer, who died practically from overwork, was held this morning, and in Judge Graham's court resolutions of respect were laid upon the inquests.

Attorney Drury was prosecuting officer when Judge Graham was a police judge, and his honor referred to him as "a lovable, kindly man, who endeared himself to all with whom he came in contact."

Attorney D. O. Crowley also spoke a few words before the adjournment of court.

CLASSIFIED ADS IN THE TRIBUNE PAY BIG RETURNS FOR MONEY INVESTED.

ARREST TWO IN FIERCE BATTLE

Deputy Sheriff Knocks One Suspect Senseless Before He Overcomes Them

ELMHURST, Aug. 17.—Deputy Sheriff Mitchell arrested two suspected crooks last night after a hard battle and landed them in the county jail at Oakland. The men gave Mitchell the fight of his life and he was obliged to beat one of them into insensibility before he would submit to arrest.

Shortly after 11 o'clock last night, L. B. Harris was preparing to lock up his store when two men entered and purchased cigars. Harris was counting his cash at the time and as the men acted queerly, closed the door and went up the street to Platt's saloon, intending to put the money in safe at that place. The men followed and one of them entered and saw Harris give the money to the bartender. He immediately went outside and began to call to his partner that it was all right.

Harris phoned Deputy Sheriff Mitchell, and Mitchell arrived just as the men were entering the saloon. After sizing the men up, Mitchell decided they were men who have been committing depredations in this vicinity, and walking up to them, told them that they were under arrest.

With a curse on their lips, both men jumped Mitchell and fought until one was knocked senseless and the other was caught while attempting to get away.

At the county jail they gave the name of Tom Brown and Billie McDonald. They will be held on a vagrancy charge until their records can be investigated.

PRISON CONGRESS TAKES UP REFORM

Governor Gilchrist of Florida Speaks Before Association at Seattle

SEATTLE, Aug. 17.—Governor Albert W. Gilchrist of Florida was the most notable speaker at this morning's session of the American Prison Association Congress, his subject being "Prison Reform in the South."

Warden F. C. Deltstrom of the North Dakota Penitentiary spoke on "The Duty of Prison Management."

The report of the committee on the parole of life prisoners was read by the chairman, T. D. Wells of Bartford, Conn., and the discussion was opened by A. W. Baker, secretary of the Indian State Board of Corrections, J. F. Scott of Elmira, N. Y., superintendent of New York State Reformatory, read a paper on "State Reformatory for Young Men."

DISMISS CASE AGAINST HENRY J. WALTERS

SAN FRANCISCO, Aug. 17.—The case of Henry J. Walters, proprietor of the Mills Building, who was arrested on complaint of Mrs. Mary K. Kelley of 2356 Sacramento street, was dismissed by the police court this morning, but was dismissed.

Walters was in court ready to answer any accusation made against him, but the complaining witness failed to press the charges. No testimony of any kind was given by the prosecution.

DISCOVERS FIRE IN COAL.

SAN FRANCISCO, Aug. 17.—Dunderson, a watchman upon the steamer Templeton lying at Powell street wharf, discovered a fire in the coal pile on the dock at 1 o'clock this morning and turned on an alarm. The department responded quickly and the blaze was extinguished before it had communicated itself to the pier. The damage was nominal.

GREEK LETTER ORDERS ARE VIOLATING LAWS

Students in High School Said to Be Secretly Seeking Members

INQUIRY STARTED BY SUPERINTENDENT BUNKER

Those Found Guilty Will Be Summarily Dismissed. Declare the Officials

BERKELEY, Aug. 17.—Suspecting that certain fraternities in the high school are violating the orders of the Board of Education, asking that all students withdraw from these organizations and secretly "rushing" for new members since the opening of the school, Superintendent S. F. Bunker and Principal James have instituted an investigation and are prepared to deal drastic punishment to offenders.

Nearly a dozen of the most prominent athletes in the school have been up before the officials within the last three days and questioned closely concerning reports that they were seeking candidates for the Sigma Phi Upsilon. Among the students who were examined are: Brevard Shuster, the football manager; his brother, Malcolm, the track star; George O. Steel, a prominent track man; Ray Whitsby, a well-leader; Elmer Dent and Herman Reed, members of the swimming team; R. Ballantyne and Carlos Mitchum, members of the baseball team, and John Evans.

The suspicions of the authorities have been directed to this fraternity ever since the order went into effect by the school board, forbidding Greek letter organizations. Only last Saturday night the members of the society gave a dance in the Mills' City House, and there were rumors about the school yesterday that some secret pledging of new candidates was in progress.

The examination of the students was secret, and Principal James said this morning that it would be continued and that an investigation into the doings of every society and fraternity in the school would be made.

Fraternities Tabooed

These organizations have been tabooed since October 19th last, when the school board passed a resolution forbidding any certificate for admission to the university to any student who retained membership in them.

Secret Pledging

This was really the beginning of the campaign which is now state wide against Greek letter societies in any preparatory school.

Superintendent Bunker at the time declared that he could root out these organizations, that they were a menace to the students and developed and provoked social jealousy and the caste spirit among the students. He was asked to leave the school, and although attorneys appeared before the board, protesting against such precipitate action, Bunker carried his point, however, and the school has since been obliged to sign a pledge that he will abstain from active membership in any Greek letter society.

Will Be Dismissed

The report that these organizations were still quietly seeking membership has caused a sensation in the school and has set the students in a fever of anxiety. It is probable that every former member of the tabooed organizations will be closely questioned by Bunker and James, and if any of them have been found violating the anti-fraternity order they will be summarily dismissed.

Liberati and His Band Are Here

Famous Director Arrives From Seattle With Seventy Musical Artists

Alessandro Liberati, with his seventy musicians and singers, who are to appear at Idora Park for five nights next week, arrived in Oakland early this morning, coming direct from Seattle. The entire organization went to Idora before noon and at the end of the day had no need of properties. Director Liberati expressed himself as being delighted with the facilities for the musicians at the park, especially and as an example of enthusiasm over the new band shell. "It is, without doubt, one of the handsomest I have ever had the pleasure to play in," said Liberati, "and I am sorry our engagement is to be so limited."

Has Opera Company

Included in the big organization which bears the name of Liberati is a grand opera company which will give performances from famous operas at every concert. Director Liberati stated that the opera company has proved to be one of the star features of his present tour. Grand opera is 10 cents, now fails in making impression and thousands of lovers of operatic music from every part of the bay will surely flock to Idora during the eight days of the festival.

The instrumental soloists with Liberati rank among the highest in the land, and the programs promise some treat for the patrons of "the home of good music."

New Concessions

A number of new fun producers are rapidly nearing completion, and will be opened before the inauguration of the Fair. The Joe Laundry opened its doors for the world's first indoor theater of merrymakers enjoyed public audience. The picture show will be ready for business before the end of the week.

Congressmen Are On Way to Hawaii

OUDEN, Aug. 17.—A congressional party of twenty-five statesmen from the East will arrive in Ouden on Sunday afternoon en route to San Francisco and the Hawaiian Islands. The party is headed by Hon. J. B. McClellan. Many of the congressmen are accompanied by their wives. They are traveling in a special car.

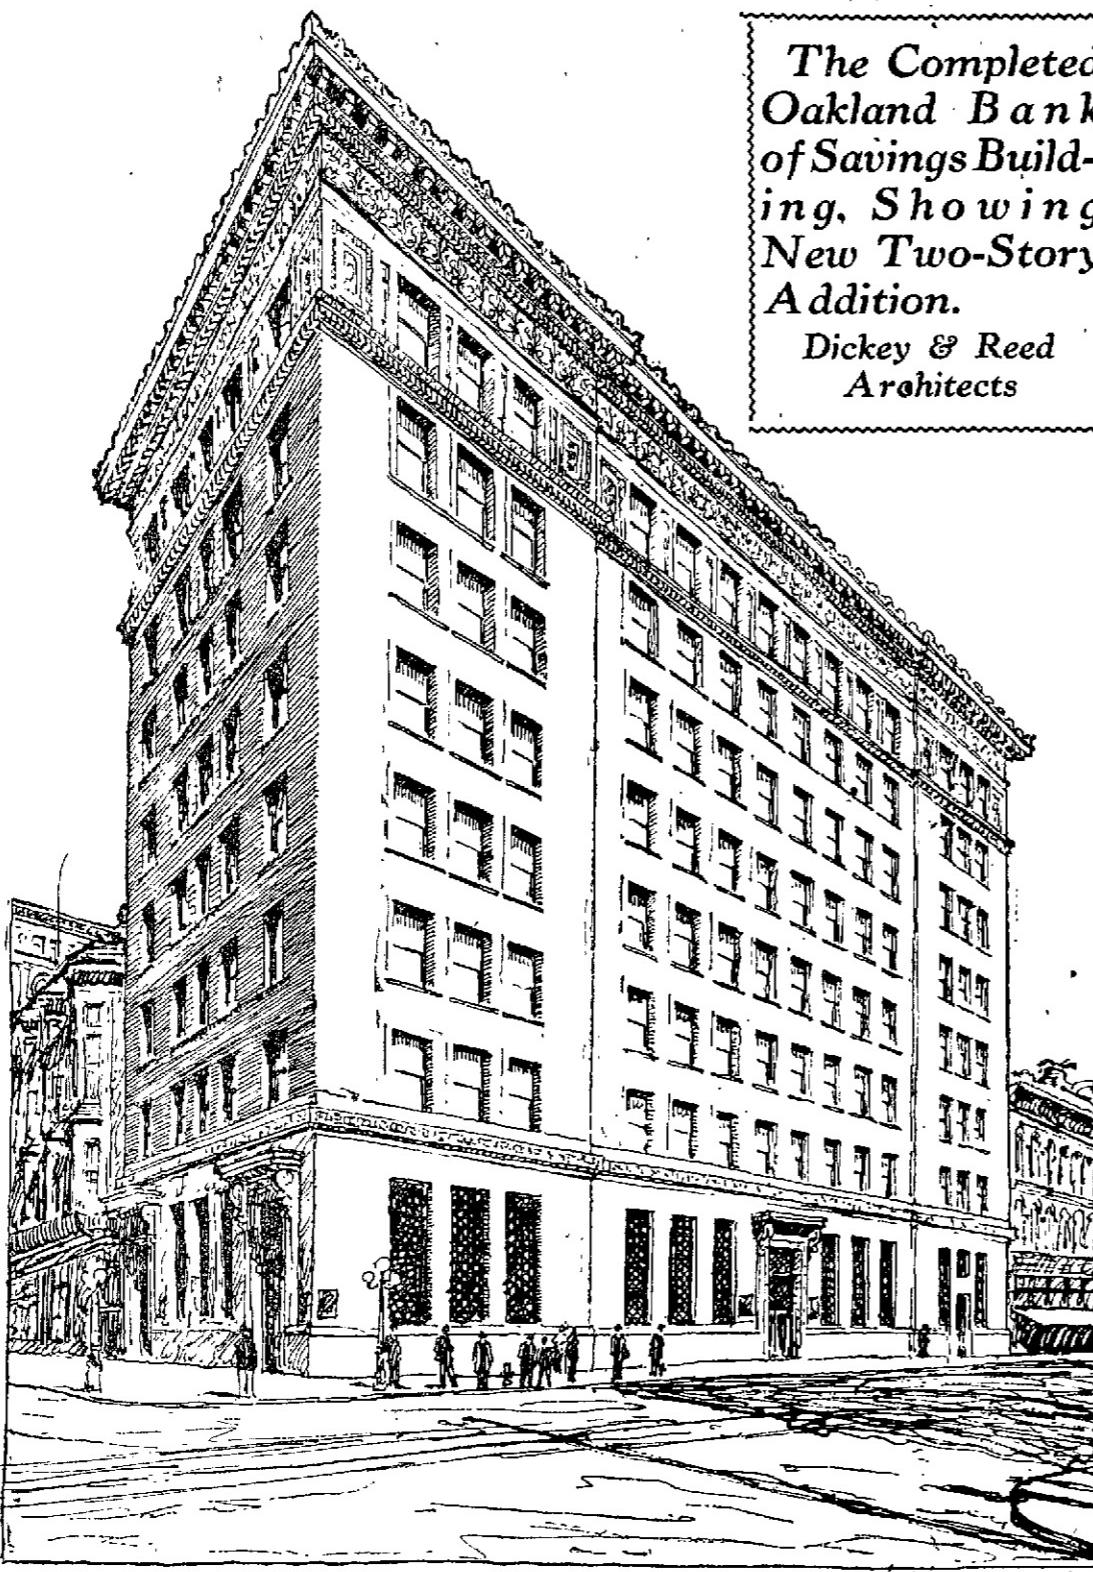

Schroeder's Fleet Works in Rough Sea

NORFOLK, Va., Aug. 17.—In a high wind and a heavy swell, Rear Admiral Schroeder's battleship fleet was today still engaged in the southern drill grounds off this coast in preliminary target work.

THROWN OFF CAR; SKULL FRACTURED

Inquest to Be Held Today Into Death of Miss Myrtle Terry

(Continued From Page 1.)

catching the girls unaware, and they lost their balance.

Superintendent Potter declares that the car was running only at ordinary speed and that the reports that the switch was defective or that the car had been derailed were not true.

Miss Myrtle Terry, the dead girl, was sitting at the extreme forward end of the car, and her sister close beside her. Both were pitched from their seat at the same instant and in the same fashion to the street.

There is a cup at the side of the switch and both rolled into helpless. All about are numerous cobble stones and other irregularities of a poorly made street. The cars coming south from the county line make high speed and the impetus of rounding the switch, except speed is reduced, is declared to be fraught with danger to people riding on the outside seats.

Vigorous Protest

The body of Miss Myrtle Terry is at the morgue in Berkeley awaiting the inquest which will be held today. Miss Elsie Terry, eighteen years of age, who accompanied the deceased on the first train, was this morning removed to the family residence on Seventh street. She sustained lacerations on the head but her injuries are not thought to be serious.

According to the story related by the mother of Miss Myrtle Terry, the girls left their home at 8 o'clock last evening for a car ride which was to have terminated at the end of the couple line. They had made up their minds that they would not step off the car but would remain seated. It was to be a pleasure trip.

Miss Myrtle, who was a fair student at the Durant school was employed by the A. W. Heiber Company as a maker of drapes. She was very popular with her fellow workers because of her sweet, amiable disposition. She was very tall for her age. Miss Elsie graduated from the Lincoln grammar school of this city.

The dead girl is survived by Milton J. Terry, Marion D. Terry and Jean Hanrahan.

COURTS ADJOURN IN HONOR OF THE DEAD

SAN FRANCISCO, Aug. 17.—A number of the Superior Courts were adjourned today in respect to the memory of Frank G. Drury, attorney at law, attorney of this city, and well known member of the Bar Association.

The funeral of the lawyer, who died practically from overwork, was held this morning, and in Judge Graham's court resolutions of respect were laid upon the minutes.

Attorney Drury was prosecuting officer when Judge Graham was a police judge, and his honor referred to him as "a lovable, kindly man, who endeared himself to all with whom he came in contact."

Attorney D. O. Crowley also spoke a few words before the adjournment of court.

CLASSIFIED ADS IN THE TRIBUNE PAY BIG RETURNS FOR MONEY INVESTED.

ARREST TWO IN FIERCE BATTLE

Deputy Sheriff Knocks One Suspect Senseless Before He Overcomes Them

ELMHURST, Aug. 17.—Deputy Sheriff Mitchell arrested two suspected crooks last night after a hard battle and landed them in the county jail at Oakland. The men gave Mitchell the fight of his life and he was obliged to beat one of them into insensibility before he would submit to it.

Shortly after 11 o'clock last night, L. B. Harris was preparing to look up his store when two men entered and purchased cigars. Harris was counting his cash at the time and as the men acted queerly, closed the door and went up the street to Part's saloon, intending to put the money in safe at that place.

The men followed and one of them entered and said Harris give the money to the bartender. He immediately went outside and was heard to call to his partner that it was all right.

At the county jail they gave the name of Tom Brown and Billie McDonald. They will be held on a vagrancy charge until their records can be investigated.

Fired Four Shots At Rogers' Auto

Attorney's Car Was Filled With Women--Warrant Out For the Constable

SAN FRANCISCO, Aug. 17.—As a result of a shooting melee, in which four bullets were buried in Earl Rogers' touring car by a South San Francisco deputy constable, George Kneese, Sunday afternoon, Rogers has been arrested and a warrant is out for the officer. Rogers' car was filled with women at the time the shots were fired and though the constable claimed to have been acting at the time in an attempt to prevent a suicide, they were thrown into a panic by the fusillade.

Rogers and his wife and daughter and several women friends of Mrs. Rogers, the party was on its way through South San Francisco to San Jose and was one of eleven motoring parties held up by the bandit on Sunday.

Rogers was arrested, following the emptying of the deputy constables revolver.

He appeared Saturday for a hearing. He is charged with resisting an officer.

Yesterday, after a long conference with District Attorney F. M. McNeilly, San Mateo County Rogers and Kneese claimed Rogers had a deadly weapon with intent to do bodily harm.

Tracks Washed Out by Storm

LOS ANGELES, Aug. 17.—The storm yesterday on the desert caused considerable damage to both Southern Pacific and Santa Fe railroads.

The Southern Pacific main line is tied up between Idaho and Arizona by washouts near the Salton Sea and between Imperial Junction and Yuma.

The Santa Fe trains are delayed by washouts between Ensenada and Mexicali and Goff. Last night's westbound Santa Fe limited train will not reach Los Angeles before tonight.

WEALTHY CHINESE PRACTICALLY PRISONERS

SAN FRANCISCO, Aug. 17.—Three Chinese men for years have been respected members of Mexico City, and who have accumulated money enough to live in China in comfort for the rest of their lives, were brought to this city practically prisoners today.

Owing to the strict laws of the federal authorities the Chinese who desired to sail from this city today on the Nippon Maru were sent here from the Mexican border guarded by Alfred Curtis, a Southern Pacific detective.

The train on which they were traveling arrived at 1 a. m. and the officer took them to the harbor station for safekeeping.

Lieutenant O'Dea did not like to subject them to the indignity of a cell and transferred them hastily to the detention shed at the Mall dock, where they were given comfortable quarters for the night.

PASTOR BECOMES HEAD OF POLICE DEPARTMENT

CLERMONT, Ohio, Aug. 17.—The Rev. Dr. Harris C. Cooley yesterday became advisory head of the police, public safety, fire and building inspection departments.

He also will have charge of the charities and correction work he has built up, which has attracted national attention.

Dr. Cooley, ten years ago, was pastor of Marion Johnson's church.

LOTTERY PATRONS FINED BY JUDGE PERSCH WAS CATS-PAW, IS CLAIMED

First Convictions Under Law Which Was Passed Fifteen Years Ago

District Attorney Jerome Says Wrongful Sale of Stock Was Part of Conspiracy

NEW YORK, Aug. 17.—In opposing a plea for a reduction of the \$40,000 bond under which Donald L. Persch, a note broker, is being held on a grand larceny indictment, District Attorney Jerome today declared his belief that the wrongful sale of Heinze mine stocks collaterally in which Persch is alleged to have figured, was but one of the allegations of conspiracy in which men "in high places" had combined to "trash a rival."

Persch was arraigned to plead to the indictment charging him with having procured from the Western Union and Postal Telegraph companies the two persons whose possession lottery tickets were found guilty in Police Judge Smith's court and sentenced to pay a fine of \$10 each. The two persons whose possession of lottery tickets drew a "ten spot" were Sam Baker and Harry Holloway.

The fact of having lottery tickets in one's possession has not been generally recognized as a violation of any law, but as an ordinance of the city, passed fifteen years ago, makes it a misdemeanor punishable by a fine not exceeding \$500, imprisonment in the city prison not exceeding six months.

As far as is known these are the first convictions under the old law. Chief of Police Wilson stated that if the Chinese lottery is not suppressed one way they will be another, even if the players have to be arrested.

Attorney Drury was prosecuting attorney when Judge Graham was a police judge, and his honor referred to him as "a lovable, kindly man, who endeared himself to all with whom he came in contact."

Attorney D. O. Crowley also spoke a few words before the adjournment of court.

By the terms of the dictum, cipher messages will be charged at the rate of 10 cents per word, and telegrams containing letters unless they appear in the dictionary. Domestic rates only are affected by the new rule, cable ciphers escaping the notice of Persch's attorney was unable to get the court to consent to the reduction of his bail. Mr. Jerome said that if before Monday Persch should consent to it the district attorney's office will file a motion to set him free, but he will be held until trial.

Mr. Jerome said that if before Monday Persch should consent to it the district attorney's office will file a motion to set him free, but he will be held until trial.

OAKLAND TRIBUNE

**HONOR MEMORY
OF DEAD MEMBER**

Y. M. I., in Session at San Jose, Pays Tribute to Late Director

SAN JOSE, Aug. 17.—With Grand President James P. Sex in the chair, the grand council of the Pacific jurisdiction of the Young Men's Institute convention opened yesterday morning at 10 o'clock. Grand Chaplain Rev. Father M. D. Slattery, pastor of St. Agnes' Church of San Francisco, spoke the invocation, after which various committees were appointed. Oakland Council No. 6 was noted absent from the grand council because the members were paying a token of respect to the late grand director, Joseph P. Callaghan.

Tells of Callaghan's Work

In the absence of any members from Oakland Council, J. A. Twoomey paid a fitting tribute to the memory of Callaghan. He spoke in eloquent terms of the work which the deceased member had done in helping to build the order into its present strength and usefulness, and in particular of his labors in behalf of Oakland council.

Grand President Sex appointed a committee to draw up resolutions of condolence to be transmitted to the family of the deceased and to arrange for a requiem mass. The grand council then adjourned out of respect to the memory of Grand Director Callaghan.

Council Enjoyed Barbecue

After adjournment the grand council took special cars to Congress Springs to enjoy the entertainment provided for them by San Jose Council No. 2. On arrival at the springs the visitors were treated to an old fashioned barbecue, to which they did full justice. Tomorrow will be devoted to business sessions and in the evening there will be a concert and dance at Congress Springs.

San Jose Council of the Young Ladies' Institute entertained the delegates last night with a reception and dance at the St. James, while the past grand presidentes to the number of about thirty, held a banquet at a local restaurant.

Interest in Election

Considerable interest is being taken already in the election of officers for the ensuing year. Stanislaus A. Riley of Ignatian Council No. 35 of San Francisco has consented to become a candidate for grand director and will enter actively into the fight.

James P. Sex of this city will be a candidate for re-election to the grand presidency. Charles O'Connor of Golden Gate Council will probably be his only opponent.

MOUNTAINEERS TO RENEW SEARCH

Will Climb Mount Tacoma to Look For Two Missing Tourists

TACOMA, Wash., Aug. 17.—The offer of a \$500 reward by the family of Joseph W. Stevens, who with T. V. Callaghan, lost on Mount Tacoma, has spurred express mountain climbers to renewed efforts to find the sunken survivors. A party left for the summit this morning. Stevens was a contractor in Tiverton, R. I. Callaghan was a student of marine and psychology and lived in Portland.

He went up Mount Tacoma with the purpose of obtaining data for a book he was writing.

WILL NOT BE TRIED ON MANSLAUGHTER CHARGE

LOS ANGELES, Aug. 17.—Ralph J. Leavitt, the Los Angeles automobile dealer, who is charged with manslaughter for running down and killing a street sweeper in Seattle, will probably not have to stand trial. The Seattle officer sent here to bring Leavitt back, stated in court today that the Washington authorities considered that they had no case against Leavitt.

FAMOUS MAJOR GIBBS DIES IN MISSISSIPPI

JACKSON, Miss., Aug. 17.—Major W. Gibbs, state auditor of Mississippi during the reconstruction days, died today. Gibbs was born in the army and during the administration of President Harrison was appointed postmaster of New Orleans, living in that office until his retirement. He was then sent to the postmaster of Leavenworth, Kansas, and remained in service until his retirement in 1900. He was afterwards pardoned.

The panel of fifty witnesses ordered in for personal examination on Thursday will, however, report as usual.

KANSAS EDITOR HANGED IN EFFIGY BY CITIZENS

LAKIN, Kas., Aug. 17.—Dr. C. D. Oakford, editor of the Deerfield News, was hanged in effigy by the citizens of that place last night, because, in an article, he appealed to the people of the United States to enter their protest against President Taft shaking hands with "The Bloody Butcher" Diaz of Mexico.

BIG FOREST FIRE IS RAGING IN THE NORTH

BANFF, Alberta, Aug. 17.—A terrific forest fire is raging in the Castle mountains, 18 miles west, near Ligran. The government fire fighters left yesterday to combat the flames. Banff and the whole district for 10 miles up the valley is enshrouded in smoke.

AMERICANS OFFER TO AID THE MEXICANS

NEW ORLEANS, Aug. 17.—Members of the American Club of the City of Mexico are forming a military company which will render its services to the Mexican residents if any necessity arises, according to H. A. Ilmen, who is a citizen east.

UNITED MINE WORKERS OPEN THEIR SESSION

BUTTE, Aug. 17.—The United Mine Workers of America, District 22, comprising Montana, Idaho and Wyoming, opened their annual convention here today. Committees were named and President Gibbons delivered a brief address.

NATIONAL TENNIS MATCHES POSTPONED

NEWPORT, R. I., Aug. 17.—Weather conditions today were unfavorable for the opening of the United States Tennis Association's annual tournament on the Casino courts.

The national championship challenge match, decided between Hackett and Alexander of New York, and the ladies' and men's and James and McLoughlin of San Francisco, the challengers, was postponed until 1 p. m. tomorrow.

MANY MOURN FOR MISS HANIFIN

Death of Prominent Young Woman Causes Great Sorrow Among Friends

The death of Miss Mary Irene Hanifin, daughter of J. H. Hanifin, formerly one of the superintendents of this county, has caused regret among all the people acquainted with her, for the reason that Miss Hanifin was widely known and esteemed, her residence here extending back to childhood. She died in the home at 1403 Grove street, in which she had resided with relatives and friends will assemble for the purpose of taking a last farewell.

It was so sudden and unexpected. For the past month Miss Hanifin had been visiting Lake Tahoe with her sister, Mrs. H. DeMachay of Sacramento. She returned to this city, caught a severe cold and was taken to the Presbyterian Hospital, where, despite the constant attention and care of leading physicians, she passed away yesterday morning.

High School Graduate

Miss Hanifin was born in this city on the 1st of June, 1880. It was here that she was educated and had been one of the most promising of her graduating class of the Oakland High School.

The deceased was a woman of amiable disposition, genial and companionable, her presence always making many social gatherings and as a consequence, her presence will be missed as much as that of any of the younger people of this city who have died even.

The deceased was survived by several brothers and sisters, all of whom have been well known in this section for a number of years. These are Mrs. V. E. McClatchey, a teacher; Sister Anna, a member of the religious sisterhood of the Holy Family of the convent at the corner of Fillmore and Hayes street, San Francisco; Mrs. John Jr., and Harry of Alameda county; Mrs. H. C. Chase of this city; H. L. Hanifin, who is connected with the San Francisco Gas Light Company; the doctor of the city of San Francisco; Miss Ada Hanifin, who is attending the high school of this city, and Frank C. Hanifin of this city.

Services at Church

The funeral will leave the home of the deceased at 9:15 o'clock tomorrow and at 10 o'clock it will be specially served at the church of St. Francis de Sales, at the corner of Grand and Webster streets, for the repose of the soul of the deceased. There will be a requiem mass said for him and there will be a full choir present to render more affecting the exercises. Interment will be in St. Mary's Cemetery.

SHOULD DEVELOP TRADE RELATIONS

Director of International Bureau of American Republics Looks to Future

DENVER, Aug. 17.—"The approaching meeting of the Presidents of the United States and Mexico at El Paso, the possible acceptance of invitations to be extended to the President of Panama and Cuba to meet the President of the United States at New Orleans, the widespread interest of interest in the construction of the Panama Canal, and the increasing investment of the United States capital in Latin-American countries, give significant emphasis to the importance of developing closer trade relations and improving the facilities for the exchange of commerce between the United States and her sister republics," said John Barlow, the director of the International Bureau of American Republics. In his address to the Transmississippi Commercial Congress today.

Important Conditions

"The legitimate and successful exploitation of this vast area depends upon four important conditions: First, tariff regulation, which permits of a reciprocal exchange of commodities; second, mail passenger and express steamship service; third, the establishment of banks controlled by United States capital; fourth, familiarity and acquaintance with the habits and customs of the Latin-American peoples and local conditions of their demand and supply."

New Tariff Favorable

"Discussing each of these partly, it can be seen that the new tariff law is far more favorable to the United States than for increased exchange of products between the two Americans; that it is almost mandatory as a protection to our own industry in competition with the rest of the world that the Mexican bill will provide us with the same kind of favor as on the seas for promoting commerce as we have in fast express, mail and passenger railroad trains on land."

Only in Its Infancy

"The exact share of the United States in the sports and imports of Latin America for 1908 was \$40,000,000—a sum many times larger than our trade with the countries of Asia, in excess of that with most of the countries of Europe—and yet it is only in the infancy of its possibilities. Still we have a tendency to look upon Latin-American as an important market."

An important corollary to this Latin-American situation is the indisputable necessity of the United States now presenting the get the benefit of the advantages that will be approached to it by the completion of the Panama Canal in 1915.

Must Prepare Now

"There can be no greater folly than to spend several hundreds of millions of dollars in the construction of this time or to open up ourselves to ourselves by getting involved in it ourselves with a few steamships flying our flag with interior waterways and harbors unimproved, and with a general ignorance of man as to how to approach them. We do not give our attention and spend our energies to make the most among these lines during the next five years."

SETTLERS OBJECT TO TOO MANY OFFICERS

BILLINGS, Mont., Aug. 17.—The territorial committee on legislation, headed by Secretary of the Interior Billings and Director Newell of the revenue department, held a session at Huntley yesterday at which the settlers of the state made complaints and suggestions for improvement. Among the complaints was one to the effect that too many officers were appointed.

In answer to the plea of the farmers, whose crops were damaged or ruined by the recent hail storm, Secretary Billings placed him in a chair to him, and everybody else in sight. He whispered for me, however, when Tracy began to shave his head around the cuts, and when the surgeon jabbed a needle into his scalp to suture the wounds—well, he submitted completely, forgave everybody and asked to be given a decent burial.

D. DWYER GOES IN REAL ESTATE BUSINESS

D. Dwyer, who, for the past 35 years, has been in the meat and grain business at Fort Lee, has retired from that business to become a real estate dealer.

Mr. Dwyer, one of the best known business men in Alameda county, has made an excellent record during his many years of residing here. His friends are certain he will make a big success of his new venture.

To Reorganize Local Council of Jewish Women

Death of Prominent Young Woman Causes Great Sorrow Among Friends

The death of Miss Mary Irene Hanifin, daughter of J. H. Hanifin, formerly one of the superintendents of this county, has caused regret among all the people acquainted with her, for the reason that Miss Hanifin was widely known and esteemed, her residence here extending back to childhood.

She died in the home at 1403 Grove street, in which she had resided with relatives and friends will assemble for the purpose of taking a last farewell.

It was so sudden and unexpected.

For the past month Miss Hanifin had been visiting Lake Tahoe with her sister, Mrs. H. DeMachay of Sacramento.

She returned to this city, caught a severe cold and was taken to the Presbyterian Hospital,

where, despite the constant attention and care of leading physicians, she passed away yesterday morning.

THE PUBLIC BENEFITED

Oakland People Greatly Interested in the Generous Offer of The Owl Drug Company.

The people here already demonstrated that they would rather trust a man who is naturally honest than one who was honest only because he had to be.

The Owl Drug Co. has a firmly established reputation for square dealing and steaming honesty. When they told the people that Revall Remedies are the purest and most dependable remedies that it is possible for modern science to produce and that they would sell the public exactly with each one of these 300 remedies contained and that they sold Revall Remedies on their own personal guarantee that they would give entire satisfaction if the medicine would not cost the user a single cent, they were believed.

This announcement the stores of The Owl Drug Co. have been crowded by people buying Revall Remedies all of which proves that The Owl Drug Co. has the confidence of the people and that honesty is the best policy.

There is no cure ill among the Revall Remedies — there are 30 different and separate medicines one for each human ill, and each unquestionably the best of its kind.

Revall Dispensing Tablets are particularly recommended for the positive cure of stomach irritation, indigestion and dyspepsia. They are rich in Bismuth Subnitrate, Peppermint and Camomintives, and are prepared for a special process which perfectly and completely retains the medicinal value of these well known medicinal agents. This remedy sells for 25¢ a package. Liverwort, satiating from stomach disorder should try it. All Dispensing Tablets in smooth 10's cost nothing if they do not taste.

The Owl Drug Co. is certainly fortunate in securing control of the sale of these medicines and we urge everyone interested or mede to investigate and take advantage of the frank and generous offer.

PROMINENT EDUCATOR DIES AT ADVANCED AGE

PACIFIC GROUP Aug. 17.—Isabel A. Hale, a prominent educator of New England and New York and California, died yesterday night from the result of an accident which occurred in January, 1908, when she fell from a chair in her home and was one time unconscious in the New England Hospital of Music at Boston. She taught many years in the Goldie G. Cole Academy at Oakland and in other schools of California, San Cruz and Whittier. She was a daughter of Rev. Hale, the Congregational divine and a descendant of Edward Everett Hale, author of "A Man for the World." Dr. Hale, for years Postmaster at Mendon, Mass., and two half-brothers, Dr. Charles B. Hale of Boston, Professor T. Goldie G. Cole of Springfield, and Frank W. Hale, a violinist, are survived at the New England Conservatory of Music. The remains will be taken to Nordenwood, Mass., for interment.

KILLED IN FIGHT OF ENRAGED BALL FANS

OLNEY, Aug. 17.—A free-for-all fight that occurred at a baseball game between the players from that town and one from Leavenworth resulted in the death of George Koenig, 21, last night. Remo, from whom he was struck on the head, J. J. Jones, a baker from Leavenworth, King's head was crushed with a bats ball bat and he died almost immediately. Jones is in jail.

The trouble began between the spectators who disputed over a decision made by the umpire. No participants in the game were injured in the fight. About fifteen engaged in the battle, which lasted for several minutes.

ARREST SOLDIER TO FOIL ROBBERS

With \$5000 Sticking From Pocket, Military Man Attracts Greedy Eyes

SAN FRANCISCO, Aug. 17.—With \$1370.50 sticking out of his pocket, the greenbacks visible to pedestrians passing by him and with a number of sharks who infest the Barbary Coast camping on his trail and following him at a safe distance, Christian Hertzer, a first sergeant in the Twenty-third Infantry, was arrested for his own protection on Pacific street, between Kearny and Montgomery, at 1:45 this morning.

Hertzer was interlooted. Otherwise Polkmen Boland and Bigelow would have had no good grounds to take him into custody. It was only a lucky chance that they came upon him and were undoubtedly the means of saving his wealth.

Accompanied by Jessie B. Richards, another soldier, the sergeant was doing the rounds of the coast slipping in one saloon, and out another and taking time to dance now and again with one of the bewitching maids who run on the wayfarer to contribute and to the rash expenditure of coin.

The officer, however, caught sight of Hertzer and at the greedy eyes of his men who were watching closely his every movement and edging up to him as they sped hundred dollar bills peeping out of his pockets. As soon as he reached the street, after leaving the Thalia dance hall, both Hertzer and his companion were taken into custody and sent in the patrol wagon to the city prison.

The sergeant proved to be one of the wealthiest drunks who has ever been booked and it took some time for the police to get hold of him. \$1370.50. Hertzer was indignant at his arrest and was allowed to put up \$10 from his money for the release of himself and Richards, the balance being placed in the safe.

He is on furlough from the Twenty-third Infantry, which is now in the Philippines.

DEATH VISITS THE HOME OF CARL D. SCHNEIDER

ALAMEDA, Aug. 17.—Carl Donwood Schneider, infant son of Mr. and Mrs. Carl D. Schneider, died yesterday at his home of 1322 Broadway. The baby was fifteen months of age and was the nephew of Henry Schneider, the Park stroller.

The funeral will be held tomorrow morning at 9:30 o'clock from the family residence. The body will be cremated in Oakland.

POLICEMAN IS SCALDED BY AN S. P. LOCOMOTIVE

ALAMEDA, Aug. 17.—Policeman Joseph Bentzett was badly scalded yesterday in a Southern Pacific engine near the High Rock bridge. He was working alongside the engine when a cloud of steam enveloped him, badly scalding him about the lower limbs and arms. He was removed to his home where Dr. Emmet Clark dressed his injuries.

Wife of Cuban Minister Is Social Favorite in Washington

SUE TO PRESERVE \$400,000 CLAIM

Wells-Fargo Nevada National Bank Plaintiff Against Ocean Shore Railroad

SAN FRANCISCO, Aug. 17.—A suit to preserve a \$400,000 claim against the Ocean Shore Railroad was instituted in the Superior Court yesterday by the Wells-Fargo Nevada National Bank. The bank loaned the sum on a note dated August 17, 1886, at 6 per cent, and claims that neither the principal nor interest has been paid. The suit is to determine whether the railroad company who owned shares at the time of the loan, and who would soon be saved by the statute of limitations, if the matter were to go to trial. The sureties and the amount of the liability follows: A. D. Bowen, \$13,375; Leon Blum, \$150; George A. Knight, \$1400; Mrs. N. P. Morrison, \$100; Mr. Cough, \$2400; D. Roth, \$1000; G. W. Evans, \$800; W. Wallace, \$900; J. C. Wilcox, \$800; B. A. Williamson, \$1200; Andrew Moore, \$800; J. L. Bradbury, \$1200.

HAVE SEALED UP SUTTON FINDINGS

As Told in Tribune, Believed to Be That Sutton Accidentally Shot Himself

ANNAPOLIS, Md., Aug. 17.—The Sutton court of inquiry closed yesterday after two secret sessions, during which testimony relative to the death, October 13, 1907, of Lieutenant James M. Sutton Jr., was gone over thoroughly. The findings were reached and signed last night. What they are the members of the court refused to say, as they will be reviewed by the Navy Department at Washington before being made public. The findings were signed by the members of the court and by Judge Advocate Leonard.

While those who sat in the case were sworn to secrecy and the findings of the court are not known, the consensus of opinion in naval circles, including the views of old officers who have served on courts-martial, is that it will be found that Sutton died by his own hand and by accident, and that he shot himself while trying to shoot another.

It is also thought that all the officers who have appeared in the case will be exonerated. While it is possible that charges might be preferred against them, no attention will be paid to them, owing to the breach of discipline having occurred two years ago.

AMERICANS GET SLICE OF CHINESE LOAN

PERIS, Aug. 17.—America's proposition in the Harbin, China, railroad loan was definitely settled yesterday by the foreign board today by Henry F. Fletcher, the American chargé d'affaires, and Tung Yen, president of the board. The loan is to be repaid from \$2,500,000 to \$30,000,000, and of this latter amount American bankers are to get one-quarter, the other three-quarters going to France, Germany and Great Britain.

HANGS HIMSELF WHEN UNABLE TO GET WORK

SAN FRANCISCO, Aug. 17.—Henderson, respondent, though long confined ill mind and through his inability to work lately, August 14, at a cement worker's house, committed suicide by hanging himself to a door at his residence, Main Calle street, at an early hour this morning.

Man, who was 30 years old, was last seen alive about 9 o'clock last evening by his son August Man Jr. About midnight he was found hanging to the bat-room door.

1,500,000 BUNCHES OF BANANAS

Are imported to the Pacific coast every year. We see the problem in the culture of bananas in the west coast of Mexico. \$1 per bushel for 100 bushels will secure an acre of growing bananas, which nets 48 per cent per year. For particulars call or write Tropical Fruit Company, 618 Phelan building, San Francisco, Cal.

THE HINDU PSYCHOLOGY

And philosophy will receive an interesting exposition at the hands of Benjamin Peirce in his Tuesday evening lecture course, which commences this evening at Pythian castle.

MOTOR RAILWAYS SAVE MONEY

By C. E. MOYES.

THE gasoline railway motor car has solved many problems for managers of smaller railroads, especially when town, fifty or a hundred miles off a regular line, is opened up and traffic is turning that way, as is seen many times in the case of a mining town or section. The motor car as a means of transportation, in this line, is found to be a necessity and has proven dependable. One motor railway company reports that their cars have covered over 200,000 miles without it being necessary to send them to the factory for repairs. Again, the operating cost has been found most satisfactorily low. One manufacturer reports an average consumption of gasoline of a gallon for each eight or ten miles. This was for a car rated at 65 horsepower but capable of developing even greater. This means that one of these cars can run 100 miles a day and be operated at a fuel cost of about \$2, including oil. There are cars in operation at the present time which make 110 miles per day, under a total cost of maintenance, of 7 cents per mile, this even counting wages and repairs.

An eastern railroad has compared the operation of the two modes of traffic, as follows: Motor car, per day, five gallons gasoline at 12 cents, 60 cents cup grease and lubricating oil, 25 cents, anti-freezing mixture, (in winter) 60 cents, motorman and conductor, \$2.32, making a total of \$4.77. On the other hand, locomotive and passenger car, per day, spends two men, at rate of cost of \$2.12, making \$7.50, oil, water, and so forth, 25 cents, engineer and conductor, \$2.92, making a total of \$5.84. It may be seen by these figures that there is a saving of \$1.10 in favor of the gasoline car. To illustrate in a slight degree the number of cars this company has in use, one company has built forty-two cars, twenty of which are used by one road. These cars have attained speeds of seventy to seventy-five miles per hour, and making many trips of several miles per day.

C. E. Mathewson of the Diamond Rubber Company states that the car tire is made of gravel or metal picked out. If allowed to remain, it is constantly working and wearing the cut larger in which they have imbedded themselves, but if removed and the hole made is plugged up with a strong cement, the casing will suffer no ill effects and it will be found, will last much longer.

A separate department for commercial cars is being established by the H. H. Franklin Company in a building in Syracuse, about a block away from their factory, which has been recently leased by the company in order to enlarge their facilities. Heretofore the commercial work has been a part of the general work of the factory.

Manager Jones of the Jones Automobile Company, local agents for the Regal cars, has received a letter from the Regal Motor Car Company of Detroit, stating that owing to the increasing volume of business, contracts have been let for an addition to the plant, which when finished, will give its factory a floor space of 470,000 square feet. The new building will be 247 feet by 54 feet and will be four stories in height. The first floor will be used for offices, the second third and fourth, and assembly, while the fourth will be used for the storing of spare parts. The company expects to build from 4000 to 5500 cars for the season of 1910, material for this number having been purchased.

The passage of the recent tariff bill among other changes, gives an increase to automobile and parts of five per cent, making the tariff ad valorem, 50 per cent. This is somewhat unexpected, as a strong effort was made by the importers to have the rate reduced.

C. S. Richardson of the Reliance Automobile Company of San Francisco, is in receipt of a telegram from the Knox Automobile Company in a building in Syracuse, about a block away from their factory, which has been recently leased by the company in order to enlarge their facilities. Heretofore the commercial work has been a part of the general work of the factory.

The total number of motor vehicles of all kinds registered in the United Kingdom up to the date of September 30 of last year was 134,391. Of this number 71,381 were private automobiles and 65,026 were motorcycles. The remainder were in use for commercial purposes or for public conveyance.

The opening of the Indianapolis Speedway on Thursday, August 19th, will be marked by the appearance of the Buick team, the largest racing organization in the world. The Buick forces will consist of no less than five star drivers, Lewis Strang, Louis Chevrolet, Bob Burman, George De Witt and Jimmy Ryall, fourteen Buick cars having been nominated for them in the different events, and the stars will compete in every race on the program.

None of the famous European factories have over three drivers, and the usual strength of the Buick team, both in number and ability, has caused much favorable comment among racing circles in Europe, where Strang and Chevrolet are almost as well known as they are in America.

Statistics show that about 37,000 persons have taken our driving licenses in Massachusetts.

A Kansas City delivery firm maintains a fleet of fifteen motorcycles, to assist the forty-five horse-drawn parcel wagons, which it operates. The little machines cover from seventy-five to one hundred miles per day. Reading Standard Motorcycles are used by the firm.

There are now thirty-one motor organizations represented in the American Automobile Association.

Diseases is a dangerous disease but can be cured. Chamberlain's Colic, Cholera and Diarrhea, Remedy has been successfully used in nine epidemics of cholera and has not failed to take it. It is equally valuable for children and adults and when reduced with water and sweetened it is pleasant to take.

People with chronic bronchitis, asthma and lung trouble, will find great relief and comfort in Foley's Honey and Tar, and can avoid suffering by commanding to take it at or on a cold. Sold at Wissit's drug store, corner tenth and Washington street.

Harbor Improvement Plans.

Members of the city government and representatives of the Chamber of Commerce, the Rivers and Harbor League and other influential citizens accompanied Colonel W. H. Heuer in a tour of inspection of the Oakland harbor for the purpose of studying the best plan of improving the water front by the municipality to meet the demands of commerce and conform with the conditions imposed by Lieutenant Colonel John Biddle, who succeeded Colonel Heuer when he was placed on the retired list as United States army engineer in charge of Pacific Coast rivers and harbors. Colonel Heuer's services have been enlisted by the city as consulting engineer because the engineer employed by the Chamber of Commerce and the Harbor League has submitted a plan which adoption has been urged by those two bodies which differs materially from that prepared by City Engineer Turner for the Board of Public Works. The latter was intended to serve as the basis for the calling of a bond election for providing funds for the proposed improvement which, aside from all other considerations, is now imperative, owing to the stand taken by the War Department's engineer relative to future recommendations affecting the depth of the channel. It is incumbent upon the city to show by its works that it will in good faith utilize the water front abreast of the Government work. Colonel Heuer has been enlisted in the case to decide which of the two plans under consideration will be the best to adopt. It is understood by all parties in interest that his decision will be final. No plan can be submitted to the people at the bond election which will be subject to doubt, for the improvement is to be permanent in every detail when carried out and cannot be altered afterward. Every one has confidence in Colonel Heuer's judgment.

The plan proposed by City Engineer Turner provides for the construction of concrete piers at stated intervals extending to the pierhead line, with docks reaching inland between them, in which shipping may be moored as well as at the outer ends of the piers. The advantage of such a plan is that it lengthens the mooring line in proportion to the depth of the docks. The plan of Engineer Flynn, as prepared for the Chamber of Commerce and the Harbor League provides for the construction of a continuous concrete seawall paralleling the channel along the pierhead line. The advantage claimed for his plan is that it will facilitate the scouring of the channel and avoid the necessity of dredging the docks, which it is assumed will shoal through silting. It will involve, however, the sacrifice of the increased mooring facilities provided for by the dock system. All ships moored at the wall would necessarily lie parallel with it and the channel. To explain the difference between the two plans so as to be intelligible to everybody—if four miles of water front can be made at once available under a bond issue, as has been suggested by City Attorney Stetson in a recent interview, on the Flynn plan it will be possible to moor fifty-three vessels four hundred feet each in length; the Turner plan, on the other hand, will admit the mooring of as many more vessels as will be represented in the extra length of the mooring line gained by the construction of docks piercing the shore line. For example, if the dock system will lengthen the mooring line one-third it means accommodating seventy ships four hundred feet long. Whether the gain in mooring accommodations will counterbalance the perpetual cost of dredging due to the probable silting of the docks is the question to be determined before action is taken.

California fared well in the new committee assignments of the House of Representatives. Knowland, McLachlan and Needham are highly placed on three of the most important committees, the Interstate Commerce, Rivers and Harbors, and Ways and Means. All three have moved up from their old positions. Knowland has gone up four numbers on the Interstate Commerce Committee, which has become one of the most important in the House owing to the vast amount of miscellaneous business referred to it. Places on this committee are eagerly sought after. Mr. Knowland's promotion comes from the election of Sherman to the Vice-Presidency, the defeat of Hepburn of Iowa, the death of Cushman of Washington and the displacement of Lovett of Massachusetts, who went off on the ghost dance of the insurgents. The Interstate Committee is peculiarly important to California and the entire Pacific Coast, hence the high place given the Congressman from the Third District is a recognition of distinct value to the whole State. Mr. Knowland is regarded as one of the most valuable working members on the committee, and his influence enlarges as he nears the top.

After all the hullabaloo in San Francisco, it is safe to say that less than fifty per cent of the registered voters will take the trouble to vote in the primary election today. Yet in some respects the primary today is even more important than the general election in November. It will largely determine the character of San Francisco's municipal government for the ensuing two years. The action of the voters today will determine who shall be the candidates of the several political parties for the various offices to be filled, hence it is the duty of voters to do their part toward having the selection fall on capable and trustworthy men. But in all probability a considerable majority will not exercise the franchise, and by so doing record their preferences as regards candidates and their desires as regards policies. They will prefer to sit back now and roll at the game after somebody else has set up the pins, ignoring the fact that the setting of the pins largely determines the result of the contest. They will thus disprove the philosophy on which the direct primary law is based, by leaving the selection of candidates mainly to the class of voters least concerned for good government.

At Washington the attack on Secretary Ballinger is regarded as an attack on the land policy of the administration. The comments of the Eastern press and the Washington newspapers show this, and more. Behind it all is a concerted move on the part of the Populist elements in the Republican party, assisted by the Bryan section of the Democratic party, to cave Taft down the bank. The scheme is to force his hand by raising an outcry that he is permitting the rights of the people to be sacrificed. It is really an effort on the part of the radicals to dragoon the President into an open declaration of war on the conservatives, and to harry him into adopting the Roosevelt method of dealing with public affairs. So the mud throwing at Ballinger is prompted by a desire to besmirch and coerce the President. In California the entire Lincoln-Roosevelt League press is joining in the attack on the Secretary of Interior and indulging in covert criticism of Taft.

Oakland made many intelligent and influential friends last week. The magnificent entertainment of the delegates from other cities to the State Realty Federation convention by the Oakland Real Estate Association was like "the casting of bread on the waters" which shall again to us in the near future multiply a hundred fold. Oakland has today, as a direct result, nearly four hundred enthusiastic outside boosters for its prosperity.

Crete Creates Critical Situation

While the Grecian government assured the Sublime Porte that it was not responsible for the raising of the Greek flag over the Cretan ramparts at Canca on the withdrawal of the four protecting powers for the purpose of restoring the island to Turkey, the members of the provisional administrative committee, which took charge of the affairs of the island after the resignation of the cabinet on Sunday, are apparently determined to force the issue of sovereignty between the two nations and subject it to the arbitration of war for settlement, having taken the oath of allegiance to the King and Kingdom of Greece. This is the answer which the Cretans have given the four great powers that formed a protectorate over the island to the joint demand they made for the lowering of the Greek flag from the government buildings and forts at Canca, which was raised immediately after the withdrawal of their troops from the island.

To prevent war it will possibly be necessary for the four great powers—Great Britain, France, Italy and Russia—to re-establish the autonomy of Crete which they have maintained since the close of Greco-Turkish war by relanding their troops on the island and again taking possession of the Cretan forts. The friction between the Grecian and Turkish government has become so intense that even this step of the international protectorate may not stop the clash of arms. Turkey has been mobilizing its forces near the Greek frontier and the invasion of the little kingdom may occur at any time. What the effect of such a course will have on Macedonia no one can foresee. The ties of blood between the Macedonians and the Greeks may result in the former rising in rebellion to aid the latter. The great powers are hurrying their warships to the scene of danger to protect their several interests and prevent an outbreak of hostilities, if possible. The situation is critical.

The plan proposed by City Engineer Turner provides for the construction of concrete piers at stated intervals extending to the pierhead line, with docks reaching inland between them, in which shipping may be moored as well as at the outer ends of the piers. The advantage of such a plan is that it lengthens the mooring line in proportion to the depth of the docks. The plan of Engineer Flynn, as prepared for the Chamber of Commerce and the Harbor League provides for the construction of a continuous concrete seawall paralleling the channel along the pierhead line. The advantage claimed for his plan is that it will facilitate the scouring of the channel and avoid the necessity of dredging the docks, which it is assumed will shoal through silting. It will involve, however, the sacrifice of the increased mooring facilities provided for by the dock system. All ships moored at the wall would necessarily lie parallel with it and the channel. To explain the difference between the two plans so as to be intelligible to everybody—if four miles of water front can be made at once available under a bond issue, as has been suggested by City Attorney Stetson in a recent interview, on the Flynn plan it will be possible to moor fifty-three vessels four hundred feet each in length; the Turner plan, on the other hand, will admit the mooring of as many more vessels as will be represented in the extra length of the mooring line gained by the construction of docks piercing the shore line. For example, if the dock system will lengthen the mooring line one-third it means accommodating seventy ships four hundred feet long. Whether the gain in mooring accommodations will counterbalance the perpetual cost of dredging due to the probable silting of the docks is the question to be determined before action is taken.

An alleged discovery of mineral oil near Kennett in Shasta county, which was followed by many locations of mining claims, has been traced to a leaking crude oil tank car standing on the track higher up the canyon. Possibly the alleged discovery of a petroleum deposit at East Richmond recently reported has been traced to some similar source, as the excitement which followed the announcement has all died out.

The sale of the Utica mine at Angels, Calaveras County, is reported. The sellers are the Hobart and Alvina Hayward estates and Charles D. Lane. The buyers are represented to be Eastern capitalists, headed by W. G. Hammond, the gold dredging magnate of Butte County. The price has not been named, but it is said to represent a fancy figure. The Utica mine has long been one of the most consistently productive gold quartz mines in the State. It served as the foundation of the great fortune which the Hobart heirs inherited from their progenitor and was the instrument through which the late Alvina Hayward replenished his once seriously impaired fortune. The same may be said of Hayward's partner, Charles D. Lane, to whom the Utica gave the real start toward the amassing of a big fortune. The ore bodies in the mine are practically inexhaustible and of such uniform richness that it is surprising the old owners should be willing to part with the property. The two estates interested in the property are said, however, to have been badly hit by the San Francisco catastrophe of April, 1906, and have had difficulty in rehabilitating. But even that was an insufficient reason to part with such a steady dividend producer as the Utica under ordinary conditions. Probably the tempting offer of a big cash payment for it as a relief to possible pressing necessities was irresistible.

What Oakland should do this summer is to carry out a campaign of street improvement and push it vigorously ahead before the wet season sets in, so that when the rains do come the pavements will be in good shape to carry the traffic. The future progress and prosperity of Oakland are largely bound up in the status of its street pavements. Unless these pavements are put in prime order all classes of business will be handicapped.

The Whittier oil field is one of the oldest in the State and has been producing steadily for the past twenty-five years or more; but the development of an oil gushing well in the field within the past week which throws a solid stream of light quantity oil fifty feet into the air above the top of the derrick used in boring and has not yet been brought under control, is a practical demonstration of California's extraordinary wealth lying in its oil measures. Pennsylvania a quarter of a century's drain on its oil measures resulted in the strongest proof of exhaustion which no amount of exploration for deeper measures was able to arrest. But the Whittier "gusher" indicates that the California oil fields have still richer measures than those which have been steadily yielding the precious fluid without showing the least sign of exhaustion for over twenty-five years of constant drain. It goes far to prove that California's oil deposits are inexhaustible; that the work of exploration is as yet in its infancy, and more productive measures than those which have been tapped remain untouched for the perpetuation of the industry and the indefinite continuance of a source of cheap fuel supply.

The automobile has left a deadly record for itself in Chicago during the past seven months, being responsible, according to a police sergeant who has been keeping tab, for the death of fifty-one persons and the injury of 1018 others within the limits of the city. The record for July exceeded every other month in the year with sixteen deaths and 182 injured chargeable against it. Carelessness and incompetency of chauffeurs and high speeding are held responsible for these casualties. If the automobile has made a corresponding record throughout the remainder of the country, it will be shown to be running a close race with the railroads as an agency of the death and the maiming of human beings. The abuse of one of the most valuable and useful of road machines is thus drifting rapidly toward a point where drastic national, state and municipal legislation will surely be demanded to curb recklessness and penalize incompetency in its management.

According to a Los Angeles dispatch a prominent apologist in Southern California is planning to organize a trust to control the honey-making industry of California. That honey-making in this State has reached such proportions as to make it a subject of sufficient importance to merge into a trust will be a matter of surprise to many people, although it should not be any more surprising than the fact that a shrewd Japanese has practically cornered and controls the potato crop of the State and regulates the market prices and has amassed a big fortune through it. Although honey-making is a modest industry, it has been growing steadily throughout the State, particularly in the brushy foothills of the southern counties for the past forty years until it cuts quite a figure today in the annual reports of the agricultural resources of California.

Oakland made many intelligent and influential friends last week. The magnificent entertainment of the delegates from other cities to the State Realty Federation convention by the Oakland Real Estate Association was like "the casting of bread on the waters" which shall again to us in the near future multiply a hundred fold. Oakland has today, as a direct result, nearly four hundred enthusiastic outside boosters for its prosperity.

Topics Timely and Interesting

In the Middle Ages so little was known of toxicology that all sudden or mysterious deaths were attributed to poison. But in the light of modern knowledge many of these are now easily explained by such diseases as appendicitis or gastritis ulcer. Even the Borgias can be absolved from many of the poisonings laid to their charge. Nevertheless, from very early times in Italy poison was a favorite means of removing an enemy.

In England, France and Germany crude methods of vengeance prevailed, and it was not until the sixteenth century that the Medici introduced poisoning into France. The fashion spread with terrible rapidity, and poison was employed in every rank of society to get rid of inconvenient persons. The art introduced into France by Catherine de Medici and her followers took root so deeply as to blossom later into the black magic of Louis XIV's reign.

The Right Rev. Henry McNeil Turner of Atlanta, senior bishop of the African Methodist Episcopal Church, accused his opposition to cowardly submission to political power and appealed to them to stand up and fight for their rights, in an address in Chicago recently. "You men and women of the colored race," he said, "do not realize your numerical power, and you are too lazy to figure it out. A

popular estimate of negroes in the United States is 10,000,000. That is far from correct. There are not less than 18,000,000 today in this country, and there are 4000 colored babies born every day. We are here and we should be a great political factor or nothing. At present we are nothing, and as long as we submit we shall have our liberties gradually limited."

In the course of an after dinner chat recorded, in Sir Algernon West's "Recollections," the late Admiral Sir Harry Keppel, who served in the navy under four sovereigns, said that the blue collar worn by sailors had their origin in the dressing of the pigtails—which Sir Harry recollects being in use—when a blue cloth was put on the men's shoulders to keep the grease off their jackets. The pigtails disappeared, but the collars remain to this day.

The collection of caricatures made by Prince von Bulow, says the "Horen Courier," will be continued notwithstanding the retirement of Von Bulow from office. Years ago he gave orders to several agencies to collect for him all papers, foreign as well as German, which contained caricatures of himself. These have been sent to him regularly, and after careful examination they were turned

over for preservation. Many of the most notable cartoons in the collection, which has already reached the fourth great volume, have marginal notes by the ex-Chancellor, but nowhere is there any comment to show that the cartoons in any way displeased him. The German Emperor has a similar collection of caricatures of himself, and when he saw the Von Bulow collection recently he said it was "almost as large, but not quite so funny," as his.

The length to which the roots of trees may grow is shown by a fragment of an elm root which was over fourteen feet long. It was only three-sixteenths of an inch in diameter at the large end.

It was cut off by a plough at some distance from the tree, so that the size of the remainder is unknown.

The tree grew at the edge of a piece of woods, and the soil of the adjoining cultivated field is rather poor and dry.

The American elm grows a rich, moist soil, and this slender root may have grown to this extreme length in an effort to find more favorable feeding conditions than those afforded by the poor soil in which it grew.

Owing to the presence of the fleet in the Thames, Canvey Island has had a great influx of good class visitors. Every body visits the one little church with its many stained glass windows, which is famous for some amazing smuggling plots.

The present vicar, the Rev. Watson Hagger, M. A., relates how within the last half century, before he was appointed, the church was served from the main land village of Henfleet. The Bishop of the diocese had arranged for twenty-six services to be conducted during the year, intending of course that they should be held fortnightly.

Instead, however, they were held consecutively, so for six months of the year the church was never opened. Taking advantage of this extraordinary state of things a band of smugglers used the building as a very safe hiding place for storing kegs of rum, bales of tobacco, laces and other contraband goods.

Some of these daring smugglers are still living on the island.

New York Financial Chronicle.

Risks will have to be seriously regarded by underwriters as business in general. Lloyd's, I hear, continues dull, although losses to underwriters as a result of casualties have not been very heavy of late. Bullion insurance brokers have been exceptionally busy, owing to large shipments of specie to South America, one vessel taking nearly \$2,000,000. All risks in these shipments are included from the bank or offices of the bullion brokers until the metal is actually delivered to the consignees. Little difficulty was experienced in getting the business through, but in the case of one steamer on which heavy insurance had already been taken out on the hull and cargo a double rate of premium, 5 shillings per cent, was conceded.—New York Herald.

The simple fact that the more railroads and steamboats we have the greater and the more imperative the need for good roads from the farms and villages that are not on the lines of the rivers and railroads to those great highways.—New Orleans Picayune.

That the State of Georgia is soon to have the finest system of roadways it has ever enjoyed seems now an assured fact, and it is nothing but fairness and truth to say that the automobile is the great and compelling factor that is bringing this much to be desired condition to pass.—Washington Herald.

The salvation and uplift of rural America depends more upon its good roads than upon any other one thing. The farmer and the people of the small towns and villages understand it now.

In not a few cases the road building

spent for makeshift improvements is worse than thrown away.—Louisville Courier-Journal.

The people of the United States are paying annually an immense sum of money for their carelessness in permitting improper highways to exist. The money comes out of the pockets of us all, in large or small degree.—Cleveland Plain Dealer.

The salvation and uplift of rural America depends more upon its good roads than upon any other one thing. The farmer and the people of the small towns and villages understand it now.

The people need to be educated to the fact that money spent for good roads is not money thrown away, whereas money

left-handed.

Professor Stier found that in the vast majority of cases it is not a more highly developed muscular arrangement in the left hand and arm which causes left-handedness; in fact, in 77 per cent of the cases examined he found that the right arm and hand were the stronger.

He found that left-handedness is in a large number of cases inherited. A left-handed man is bound to have a certain race of his children of a like habit.

He reckons that 50 per cent of left-handed persons had left-handed parents, and that this peculiarity is inherited by three times as many boys as girls.

Especially remarkable is the combination of stuttering with left-handedness. The Inquirer went on to say that the indications were that we should have to worry along some time to come yet with the borrower time that goes with "America" and with the screaming strains of "The Star-Spangled Banner," with "Yankee Doodle" and "Dixie" as alternatives.

That was months ago, and the Inquirer is still hearing from its remarks. We had no idea that the lack of a national anthem for a genuine national hymn as to stir the poetic fancies of so great a multitude.

While we have been swamped with effusions of more or less merit, we regret to be forced to say that in our humble judgment the void will have to remain a void until the proper moment arrives for filling it.

When will that moment come? We do not know. The national hymn of the United States will be born some time, and probably in the midst of a great crisis. The words will not be everything. There must also be the music. Both must be impressive and at the same time popular enough to be easily learned.

"America," were it our very own, could hardly be displaced. Unfortunately, the words only are ours. The air is that of the national anthem of England, although it was originally "made in France." Our "The Star-Spangled Banner" has its uses. We rise to its music, and we persistently refuse to learn the words, hence no American audience can sing more than a half dozen lines, thus emphasising the fact that we need a genuine anthem of national character that will stand on a footing with the beautiful Russian hymn, for instance, and can hold the multitude as does the "Marseillaise" in France.

That anthem will come some day, but it will not be made to order. It must be the spontaneous outburst of a vast patriotic sentiment, both as to words and to music.—Philadelphia Inquirer.

Engineering

At the Alaska-Yukon-Pacific Exposition, the War Department exhibits a model of the system of protecting harbors by mines, thus showing the people of the Pacific Coast how secure against the entrance of hostile ships they may be.

According to a recent agreement between the Compressed Air Workers Union and the employers, the men will be paid according to the amount of air pressure in which they are compelled to work, instead of in proportion to the depth to which the caissons are sunk.

Special interest attaches to the "Flamingo," which will probably undergo her trials during the next two or three months, because of the fact that she is the first of the "Dreadnoughts" designed specifically as such for our navy, and the first of our battleships to be driven by turbine engines.

With a view to avoiding the objections raised by property owners to a four-track tunnel through Lexington avenue in New York, at one level, which would involve sidewalk encroachment, the Public Service Commission recently announced that plans are being drawn for a double-deck tunnel with the two local tracks immediately below the streets and the express trucks immediately below the local tracks.

The launch of the rippled of Fulton's "Clermont" and the arrival in New York of the reproduction of Henry Hudson's "Half-Moon," foretell the near approach of the Hudson-Fulton celebration in New York City.

A physician heals others for the purpose of "heeling" himself.

Every man is a soloist when it comes to singing his own praises.

All men are born free and equal and remain so until they marry.

People who think they are the whole world are entitled to another think.

MRS NELSON'S DECREE
Superior Judge Waste has granted an interlocutory decree of divorce to Augusta L. A. Nelson from C. W. Nelson on the ground of non-support. Mrs. Nelson resides at 3216 Fernham street, Pinoleville.

FRIENDLY WIVES MEET IN COURT

Wife No. 1 Collects Alimony While Wife No. 2 Sees Justice is Done

Wife No. 1 and wife No. 2 of William H. Fisher, an employee of a local cafe, were before Police Judge Samuels this morning, the first to collect \$12 alimony for the support of a minor child, and the second to see that justice was done. Both women were friendly, and after the court directed Fisher to pay the \$12, which he did, they left arm in arm together.

Mrs. Anna L. Fisher, or wife No. 1, obtained a divorce from Fisher 10 years ago. Since that time she stated her contributions for the support of her little girl have been few and far between. During all of last year Mrs. Fisher No. 1 states that she only received \$5, and that during the present year she received but \$8 worth of clothes for the child.

At first Fisher was inclined to fight the case, and hired an attorney, but this morning, when he was confronted by an angry-looking woman, he apparently thought the decision was the latter part of a farce and decided to let his mother be of "legal age."

AT 89 TO WED MAN 51 YEARS OF AGE

PITTSBURG, Pa., Aug. 17.—Miss Evelyn Hall, aged 89, and Robert B. Wright, aged 61 years, both of Turtle Creek, Pa., yesterday took out a marriage license in the Allegheny county license office. They will wed tomorrow. John Hall, 62 years old, a son of the woman by a former husband, was present at the marriage license office and declared his mother to be of "legal age."

BOTH MUSICAL BUT NOW OUT OF TONE

Laura A. Turner, who is a musician and earns her living playing for dances and various other public entertainments, has secured a final decree of divorce from John H. Turney, also a musician, who drives an automobile by day and plays his violin by night in the Superior Court.

Can YOUR Optician Point to a Record Like This?

Following the plan of the White Star Line whose ships engaged in the Liverpool service, will call at Holyhead on both sides of the Atlantic. The voyages are to be made when running westward will call at Fishguard on the southwest coast of England, and then round about the British Isles for several hours' time, and in case of the "Mauritania" and "Lusitania," it would be possible for passengers to be landed in New York on a Thursday night.

C. J. Bartlett of New Orleans, regarding the problem of navigating steamers in shallow water, deep water are alternately encountered, proposed the construction of a submarine ship designed to carry two barges, 1500 tons each, and of eight feet draught when loaded, so as to deviate from and encounter shallow water to afford the barges free feet, and tow them through the shallow reaches of the sea for distances up to six feet of water and fifteen feet when loaded, thus affording favorable conditions for any depth over the eight feet draught of the barges.

Being mainly to the example and instructions of the German Emperor, Germany possesses one of the finest fleets of large yachts in the world, the two latest additions, the "Germania" and the Emperor's new schooner built this year, being the fastest vessels of their class affect.

STRENGTH FAILS IN SURF; GIRL DROWNS

Death of Miss Ghirardelli Casts Pall of Sorrow Over Society

MANY WOMEN SEE FAIR SWIMMER DIE

Heavy Breakers Prove Too Much For Talented Artist and Social Favorite

The untimely death of Miss Alida Ghirardelli, the talented daughter of D. Ghirardelli, the San Francisco chocolate manufacturer, who perished in the surf at Seal Rock, Oregon, yesterday, while women and children looked on helplessly has thrown a pall of sorrow over social activities in this city, where the fair victim was widely known.

A popular member of the younger set on both sides of the bay, the dead girl frequently spent several days in this city, a guest of her aunt, Mrs. Thomas Cushing, formerly Mrs. J. Ghirardelli. The tragedy coming just at this time when Miss Ghirardelli, who is an artist of uncommon ability, has only just returned home from a protracted stay abroad is unusually sad.

Surf Was High

Yesterday thirty helpless women and children witnessed the tragedy and heard the brave girl's cry for aid as she battled to get through the wall of white breakers, that make the beach of Carmel one to be dreaded even by strong men. But owing to the unusually high surf that was running none was able to render her assistance. In the midst of the foaming whitecaps she sank.

It was the young woman's custom to take a daily swim in the surf. Yesterday as usual, in company with Miss Muller and Miss Sargent of Alameda, she swam in the ocean beach. But though there were many basking in the sunshine, none was swimming on account of the unusual surf and the accompanying undertow.

The beach at Carmel is somewhat precipitous, as a consequence of which the water a few hundred feet out is comparatively smooth. It was evidently the swimmer's purpose to reach this smoother water, rest, and then return.

Strength Failed

Those on the shore watched her as she progressed beyond the rough water and noted her progress as she swam in a semi-circle and headed for the shore. A good swimmer, she made fast progress until she was well among the breakers. Then she seemed to falter, as if the long swim in the cold and unusually rough water was too much for her strength. It was easy to see that her strength was failing.

The women began to cast about them for a man to get out the lifeboat. Not far in sight just a horseman rode into the beach to the south toward the mouth of Carmel river. Toward him a dozen began to run for help.

Arrives Too Late

When the horseman arrived, it was too late. All he could do was to send word to Robert Mitchell in Carmel to John H. in launching the lifeboat.

Together they began the search for Miss Ghirardelli's body. Soon a score of small boats had joined the lifeboat. Two hours later the glassbottomed boats arrived with divers from Monterey, but likewise without result.

Social Favorite

The girl was a great social favorite in San Francisco. Educated at Miss West's school, a student at the Hopkins Institute of Art, and then for two years with Harry Stuart Fonda in his studio, after which she studied abroad in Paris and then in Rome. Miss Ghirardelli returned only last year to Carmel, while in Europe she exhibited her paintings to the foreign critics. Handsome, distinguished, possessing a magnetic and charming personality, Miss Ghirardelli had before her all the bright promise of a distinguished social and artistic career.

Relief is Promised

WASHINGTON, Aug. 17.—A special report issued by the weather bureau today gives promise of speedy relief from the intense heat in the Middle West. The hot spell, it is stated, will be broken in the plains states and Missouri valley tonight and the fall in temperature will be attended by showers. The next disturbance from the west will appear in the extreme northwest Thursday, the central valley and great lakes Friday, and will reach the Atlantic Coast about Sunday.

106 IN SHADE

KANSAS CITY, Aug. 17.—At noon today a temperature of 106 in the shade was reported here, the hottest in southern Kansas for several years.

HEART--TRIBUNE'S PAGE FOR WOMEN--HOME

MISS VIVIAN E. FAVOR, who with her mother, Mrs. Eliza C. Cooper, have been joining an outing of two months at Camp Vacation, have returned and are now established for the coming season at their home, 1835 Prince street, Berkeley. Miss Vivian is a girl of many accomplishments, and of much personal charm. She is an amateur musician and is an artist with the brush.

An European trip is in store for her later on, her mother planning to cross the Atlantic to place this talented girl under instruction of renowned masters.

'S Favor has many friends in the town where she frequently eats at her hospitable home.

FOR BRIDE-ELECT.

Miss Mary Wadell entertained this afternoon, her honored guest being Miss Nettie Hall, the much feted fiancee of George Hill.

The Wadell home was beautifully decorated for the occasion, every detail being suggestive of "cupid" and his charms. Red sweet peas, tuns and garlands of red roses were used in profusion. Bridge was the diversion of the afternoon, followed by the serving of a daintily appointed supper. After the enjoyment of the delicious meal it was made, little Ruth Dewing, in dainty gown of white with red sash and hair ribbons, came into the room bearing a basket made of four large red hearts, filled with dainty packages, which she presented to Miss Hall, the guest of honor. The contents of the basket were dainty bits of linen contributed by the assembled guests for the new home in Klamath Falls.

The guests today were, Miss Nettie Hall, Mrs. F. W. Hall, Miss Emma Atherton, Miss Sybil Trapp, Miss Sara Haldon, Miss Florence Weeks, Miss Grace Weeks, Miss Hazel Burpee, Miss Hazel Marks, Miss Gladys Courtland, Miss Irene Colegrave, Mrs. Charles King Jr., Mrs. George H. Cragg, Miss Ruth Seeby, Miss Daisy Seubiger, Miss Irene Flanagan, Miss Hattie Alexander, Miss Florence Hill, Miss Helen Bancroft, Miss Madeline Kemp, Miss Olive Culver, Miss Marion Howard, Miss Ada Sherrill, Mrs. Carl Schaeffer, Miss Clara Dabney, Miss Margarette Dewing, Miss Alice Dewing, Miss Anna M. McNamee, Miss Harry M. Howard, Miss Jeannette Nusmith, Miss Evelyn Morris, Miss Genevieve Sturmi, Miss Otto Voss.

HOME WEDDING.

The wedding of Miss Barbara Davis and Horace Arthur Case was solemnized last evening in the presence of relatives and a few close friends at the home of the bride's mother on Thirty-second street. The Rev. Clifton Macom, rector of Trinity Church, was the officiating clergyman.

Green and gold were used for decorating the rooms for the pretty affair, the marriage service being read under a bower of green foliage and white blossoms.

The bride was attended by her sister, Miss Nettie Ray Davis, as maid of honor, and Miss Winifred Case, a sister of the bridegroom, was the attractive bridesmaid. Garfield Case attended his brother and best man, Mr. and Mrs. Case left last night upon their honeymoon journey, which will be enjoyed in the north. Upon their return they will make their home in this city.

Mrs. Case formerly resided in Pleasanton, where her family were prominently identified with business and social circles.

Mr. Case is a graduate of the University of California, and has business interests in San Francisco.

PLAYERS' CLUB.

The first meeting of the Players' Club will be held on Tuesday, September 14, at the home of the president, Mrs. George H. Perry, 910 Willow street, Alameda. It is hoped that Mrs. Mary Fairweather will be present at this meeting. Mrs. Fairweather has been in New York for the past three years, where she has had many honors given her for her very able literary work. She will receive a most cordial welcome from her host of friends in this state, where she is well and favorably known. Her friends are most enthusiastic over the prospect of her remaining in California for the winter. It makes arrangements to do so, there will be many opportunities given to meet and hear this gifted woman.

PICNIC PARTY.

This morning a number of automobiles filled with society ladies left for the Charles Rudolph house just out of Livermore to enjoy a picnic given in honor of Mrs. George Martin of Berlin, who is enjoying a visit with her home people.

About thirty friends were included in the merry ride. The party will enjoy the day, which is to last for the duration, on doors and will return to town this evening.

SEWING SEE.

Miss Alice Meurer, the most continuously fated girl of the season, was entertained today by Miss Adel Ebenbier at her pretty home in Alameda. The guests which included a group of congenial friends brought their sewing bags and a number of articles were enjoyed with dainty needle work and pleasant chat. Many a society maid finds pleasure in a most admirable mode of entertainment. Every girl is proficient in the art of making dainty accessories for her toilet and the gathering of congenial friends is conducive to the exchange of ideas.

A prettily appointed supper rounded out the pleasure of today's meeting.

WEEDING DAY.

The marriage of Miss Florence Ainsley and Dr. Benjamin E. Baker was solemnized at the home of the bride-elect's parents in Santa Cruz late in September. Dr. Kurtz is one of the youngest members of the faculty of the State University and has received much flattering criticism upon his literary work.

Miss Ainsley is a graduate of the University and has many friends in the college town as well as in Santa Cruz where she has made her home for several years.

Dr. Kurtz and his bride will make their home in this city, his bride being a well-known author in the social circles.

RECEPTION DAYS.

Mrs. Harold Day Perry an attractive Alameda bride has announced her reception days for the season. The first day when she will receive at her artistic home,

Sentimental Sisters Sell Old Home for \$1,190,000

PITTSBURG, Pa., Aug. 13.—Two sisters, Mrs. Joseph R. Stewart and Mrs. I. C. Cooper of Faverte County, about fifteen years ago, in making a division of their father's estate with their three brothers, elected to take the home farm as their share.

The farm to them had a greater sentimental than intrinsic value. They have just sold the farm, undivided with fine coalings, to the Pittsburgh & Monongahela coal company for \$1,190,000.

The tract lies in the lower Connellsville coke region. It is known as the old Mr. Hogg farm, and since the death of Mr. Hogg, father of the women, the land has advanced in value from \$40 to \$700 an acre.

The land was purchased to go into the \$70,000,000 coke merger, which will include all the independent plants in the Connellsville region.

Kiss Was the Undoing of Fugitive

HUNTINGTON, W. Va.—Five years ago Ben Roop shot and killed Charles Harris in a saloon brawl in Fayette county but escaped, leaving behind him a young wife and two children. On Sunday he returned, walked into his home and the presence of his wife and kissed her.

Before she recovered from her surprise the nowworn was knocked down by her second husband. His arrest followed and his conviction was secured, and the fugitive will be taken to Huntington tomorrow to serve out his term of two years. The light sentence pronounced upon him was due to the influence of the State to procure important witnesses in the case.

Women and The Colleges

If Brown University has been the first New England educational institution to respond to the impulse, which others must have felt but have inhibited, to honor itself while bestowing a degree upon Mrs. Howe, it is comforting to know that women of like fibre and spirit of later generations will not have to wait so long for such academic recognition, says the Boston Herald. For not only sectional and sectarian, but also sex barriers are failing that hitherto have stood in the way of academic liberty, fraternity and equality.

Bowdoin College, a few years ago, gave Miss Sarah Orne Jewett a degree in recognition of her literary achievements.

Miss Helen Weston has been chosen as the maid of honor and the group of

Bridesmaids will include Miss Mary Dowd, Miss Rosina Elliston, Miss Margaret Hayes, Miss Inn Hughes, Miss Helen Godfrey and Miss Ethel Wickson.

KISSING NOW PERMITTED IN PARKS OF BALTIMORE

BALTIMORE—Lips pursed and lips pucker'd may now meet in osculatory bliss in Baltimore's parks, for the ban of years on kissing has been lifted and the joy of thousands of youths and maidens is unconfined. When Gen. Berry was head of the Park Board he caused the arrest of spooning couples, who, besides the humiliation, were obliged to pay fines. Since then the rule against kissing has been enforced.

Is kissing permitted in the parks now? General?" he was asked.

"Kissing is now allowed," he said.

Gen. Ferdinand C. Latrobe, seven times Mayor of Baltimore and President of the Park Board, made public the good news today while he was opposing a proposal to put more lights in the parks.

The General resented the charge that

couplets are frequent in the parks. He declared that Baltimore's parks have been

in better condition than ever before.

IMPERIL LIVES THROUGH THEFT

Barrier Safeguarding Wreck
of High Street Bridge is
Carried Away

ALAMEDA OFFICIALS FEAR ACCIDENT WILL RESULT

Complaint Will Be Made to
U. S. Authorities--Repairs
to Be Demanded

ALAMEDA, Aug. 17.—Vandals have carried away the plank barrier at the High street bridge that served as a warning to automobile drivers other vehicles and pedestrians that the bridge was out of condition for traffic, and it is feared that some serious accident will result.

The bridge was almost completely destroyed by fire about three months ago, and since that time there has been no traffic over it.

Secretary Ralph A. Russell of the Chamber of Commerce while investigating some land near the High street bridge yesterday noticed that there was no barrier to prevent persons from going on the bridge and plunging through the burned timber, and notified Superintendent of Streets V. M. Proden today of his findings.

To Seek Protection

The matter of the bridge is entirely out of the jurisdiction of the city, and Secretary Russell will notify Colonel John Biddle of the War Department today in regard to the matter and ask that men be stationed at the bridge to prevent accident until it is repaired.

The request for protection will be made at the suggestion of Superintendent Proden.

Secretary Russell said today: "The bridge must be fixed immediately. Some serious accident will happen. As it is now an automobile driver would run right on to the bridge without knowing of the danger, and if such a mistake should be made driver and occupants would certainly be killed. There is positively no way for strangers to know that the bridge is out of repair. There is a small sign nailed on a tree which states that the bridge is closed but not one person out of a thousand would see this placard. There was no light on the High street bridge last night."

Bids have been advertised for the repairment of the bridge, which will undoubtedly be rebuilt within the next few months.

ALAMEDANS IN LAUNCH VAINLY FISH FOR SALMON

ALAMEDA, Aug. 17.—Traveling outside the heads in the launcher "Mamie" and the "Dolphin" was the name that came to L. E. Krouskoff, T. James Stearns, George H. Moore, J. Goldmann, G. Johnson, H. Goldsmith, Russell Pariser, C. Anderson, H. Almonson, Skipper Lewis and others Sunday. The party left here at 1:30 o'clock in the morning for salmon fishing outside the heads. They fished out to Durbarf Islet, and experienced a delightful sea but scanty bites. Although everything was propitious for a big haul, the fishers were unsuccessful in landing the desired salmon. They enjoyed a fine day and arrived home at about 8 o'clock last night.

ALAMEDA SCHOOL BOARD TO INSPECT NEW PLANS

ALAMEDA, Aug. 17.—The regular meeting of the Board of Education will be held tonight at the Hotel Crescent on Thursday evening, Aug. 26. The subject for discussion will be "A Right to Part in the Community's Prosperity." Commissioner John Welker will preside as moderator. A large audience is expected and arrangements have been made with the management of the Crescent Grill to provide one of the tastiest repasts that the Pythian Sisters are contemplating.

The Pythian Sisters are contemplating the success of Saturday's tournament and the success of Saturday's tournament will determine whether or not the order will hold similar affairs regularly during the winter season.

RECOVERY IS PREDICTED FOR MRS. TOM CARPENTER

ALAMEDA, Aug. 17.—Mrs. Carpenter, the wife of Dr. Tim Carpenter, who underwent a capital operation at the Alameda Sanatorium Sunday, although reported weak and confused, is doing as well as can be expected. Her hospital days are numbered. Her son, Santa Cruz avenue, will be in town Saturday. Mrs. E. A. Hartley, Mrs. T. Mann and Miss Jessie Hicks.

Dancing will be a feature of the program, following the whist play. This is the first of a series of card parties that the Pythian Sisters are contemplating.

The Pythian Sisters are contemplating the success of Saturday's tournament.

It will determine whether or not the order will hold similar affairs regularly during the winter season.

FISCHEL SHOWS A TURN FOR BETTER

Doctors Think Injured Man
Will Recover; Accused As-
sailants Released on Bail

BERKELEY, Aug. 17.—There was a turn for the better this morning in the condition of Charles Fischel, who was severely injured in a quarrel last Saturday night, and as a result the police authorities decided to accept bail for the release of the three accused, accused of being his assailants. W. W. Woods and wife, at whose home at 1730 University avenue, the trouble occurred, secured their freedom on bonds of \$500 each. Woods was arrested immediately after the injury of Fischel was reported, and Mrs. Woods was taken into custody yesterday afternoon, when the doctors reported that the condition of the injured man was serious. Both husband and wife were charged with battery.

W. W. Cox, the other member of the troupe, his bonds fixed at \$2000, and thus far unable to provide security to take his bail. Cox is believed to be the aggressor in the fight, and the story of Fischel's friends is true that he was thrown from the back porch of the Woods house. Cox is credited with this part of the trouble Fischel, it is now believed, will recover. He has improved within the past twenty-four hours a marked degree, but is yet unable to give any lucid account of how he was hurt. Fischel's relatives are wealthy, and they promise that the prosecution of Mrs. Woods and her husband and Cox will be pushed to the limit.

GAMMI PHI BETA TO MEET SEPT. 7 TO 11

BERKELEY, Aug. 17.—The Gamma Phi Beta sorority will hold its annual convention in the local chapter room, 2640 Durant avenue, September 7 to 11. There are twelve chapters in the United States and that will be the first time that the members have convened on the Pacific coast. The sorority is 35 years old and was organized at Syracuse in 1874. It is one of the leading Greek letter societies for women and has on its rolls about 1500 members.

The officers of the grand convention are: President, Mrs. T. L. Berry, North Shore, vice president, Miss Mabel E. Stone, Syracuse; secretary, Miss Marion Dean, Boston; treasurer, Mrs. O. Y. Hansen, New York.

Mrs. Harry Arthur Williams, Mrs. J. Richardson, Mrs. Warren Chase Jr., Mrs. Louis Halston, Mrs. Edwin T. Blake, Mrs. Charles Palmer and Mrs. Irving Stingham are among the prominent alumnae of the big cities.

Among the active members of the Beta chapter of the university are:

Alice Hunt, Margaret Griffith, Mary Blevin, Genevieve Goddace, Maxine Derge, Constance Werner, Lorraine Andrews, Lillian Wood, Russell La Conte, Mary Hall, Justin Grifith, Sarah Morgan, Elizabeth Austin, Bertha Bridge, Elizabeth Bridge, Orr Muir, Elmer French, Josephine Le Conte, Penelope Murdoch and Sydney Baldwin Gray.

CHAMBER OF COMMERCE PLANS MONTHLY BANQUET

ALAMEDA, Aug. 17.—The Chamber of Commerce is preparing for its regular dinner meeting at the Hotel Crescent on Thursday evening, Aug. 26. The subject for discussion will be "A Right to Part in the Community's Prosperity." Commissioner John Welker will preside as moderator. A large audience is expected and arrangements have been made with the management of the Crescent Grill to provide one of the tastiest repasts that the Pythian Sisters are contemplating.

The Pythian Sisters are contemplating the success of Saturday's tournament.

It will determine whether or not the order will hold similar affairs regularly during the winter season.

SELLER OF LOTTERY TICKETS FORFEITS BAIL

ALAMEDA, Aug. 17.—Quong Lung, the Chinese arrested several weeks ago on a charge of selling lottery tickets and released on \$150 bail, has signed his intention of forfeiting his bail money. His case was to have been heard this morning before Police Judge R. B. Tappan. The Chinese had engaged an attorney to defend him.

ALAMEDA, Aug. 17.—Mrs. Carpenter, the wife of Dr. Tim Carpenter, who underwent a capital operation at the Alameda Sanatorium Sunday, although reported weak and confused, is doing as well as can be expected. Her hospital days are numbered. Her son, Santa Cruz avenue, will be in town Saturday. Mrs. E. A. Hartley, Mrs. T. Mann and Miss Jessie Hicks.

It will determine whether or not the order will hold similar affairs regularly during the winter season.

LOUNGES NEAR FREIGHT DEPOT; LANDS IN JAIL

ALAMEDA, Aug. 17.—James Taylor, otherwise known as "Headlight," Taylor, was arrested yesterday by Policeman Key and charged with malicious mischief. Taylor is accused of trying to break into the freight depot at the north side Park street station. He is a vagrant on that station and has been booked on the police records innumerable times as a vagrant. Taylor is 22 years of age. He received the cognomen of "Headlight" on account of his nose, which is said to be a bright and scarlet hue.

It is supposed that Taylor broke into the freight depot to loot the place.

His case will be heard tomorrow by Police Judge R. B. Tappan.

TAX RATES OF ALAMEDA NOT TO BE INCREASED

ALAMEDA, Aug. 17.—Colonel E. B. Tappan, who visited the different municipalities yesterday and this morning for the purpose of settling the tax rates, with a view to settling the tax rate on the third Monday in September. Col. Tappan stated today that he did not anticipate an increase in the tax rate, but that nothing definite could be decided before the county and state assessments were made and the road assessments submitted.

STUDENT BODY OF BOONE'S ELECTS NEW OFFICERS

BERKELEY, Aug. 17.—The student body of Boone's Academy has elected the following officers for the coming year: President, H. R. Scott; vice president, T. M. Higginbotham; secretary, D. Jacob; and Harry Bond, treasurer. The new student body from Sacramento and is well known as a football, baseball and basketball team. Mr. Caldwell will act as football manager.

ARRESTED AS A THIEF, HE PLEADS "NOT GUILTY"

ALAMEDA, Aug. 17.—James Taylor, who was arrested yesterday on a charge of attempting to break into the Southern Pacific freight depot on Park street, appeared before Judge Tappan today and entered a plea of "not guilty." The case was set for trial for next Thursday morning at 8:30 o'clock.

JAPANESE BATHERS ARE ARRAIGNEED IN ALAMEDA

ALAMEDA, Aug. 17.—The four Japanese, who were arrested Saturday for violating the city's ordinance prohibiting promiscuous bathing were arraigned today and their trials set for Thursday morning. The men will be placed before the court through the medium of an interpreter who will be secured in Oakland.

FRESHMEN HEAR WORDS OF ADVICE

President Wheeler Addresses
Students at First University
Meeting of Year

BERKELEY, Aug. 17.—Sound words of advice were given to the members of the freshman class when they met the entire body of the University for the first time at the first university meeting of the year in Harmon gymnasium yesterday. President Wheeler was the speaker of the occasion. In part he said:

"The chief things for which a man is sent to college are: (1) to be trained in the pursuit of knowledge; (2) to be trained for the successful practice of some life activity; (3) to be trained, if possible, in the intelligent mastery of some one of the human pursuits, so as to create, discover, invent; (4) to be trained in maintaining the moral values, so as to be a member of society, not other than in side; (5) to be trained in the maintenance and development of physical health, without which all the other things are vain; (6) to be trained in orderly co-operation with the purposes of society, which means both submission to the law and assertion of it."

Regular at Study

1. Don't forget—whatever else you may do—go to regular daily attention to your studies and to attend to that first of all. When a man begins to go elsewhere, he is apt to find "a stem chasm," and then loses his ambition. The first half of the first term is the worst test, because of its distractions. The number of those who drop out at the end of that term is pitifully full."

2. Don't plan to drop out with a course half finished. It is something a man will always have to explain in after life. Why did you start and then quit? Accepting the bribe of an immediate livelihood generally means selling one's birthright for a mess of porridge. Stick it out, fight it through; don't be beaten in the first skirmish. A man loses respect for himself.

Don't Follow Crowd

3. Don't follow the crowd in choosing studies. Have a field of your own. You will get more attention in the less frequented courses. You will have more individual work to do.

4. Don't go into engineering unless you are good in mathematics. Mathematics and mechanics will undeceive you. Only the best schools should venture upon these courses. Others will find themselves later, however, that they pull through, second engineers.

5. Don't choose law with the idea that if you are a good student, you can yet manage to live by your wits, or that you can drop into some political office. There is nothing more pitiful and seductive than broken down lawyer living precariously on his offices.

6. Whatever your occupation is to be, practice public speaking and correct and forcible writing. There is no walk of life in which you can get along so easily as in public speaking. Learn to express yourselves carefully in ordinary speech. Read sound English. Have a good book ready at hand for a chance 10 minutes of leisure.

7. Be sure you have among your interests some skill in playing musical instruments or sports. You can not make your college life a success if you associate with men who are idle, reckless or immoral. You will surely be infected sooner or later. Watch and see if you have come up from every viewpoint.

8. If you are on the wrong track, the fellow you are on the wrong track and the fellow who is proud 25 years from now will mostly come from those who work hard in college.

Great Council Of Redmen and D. of P. Convene

President Wheeler Addresses
Students at First University
Meeting of Year

WOMEN SAVED BY THIS OCTOGENARIAN

They Were Sinking to Death in a River When He Went to Rescue

PIGGEN Ore. Aug 17.—Rene Ingland aged 12 was drowned in the McKenzie river twelve miles east of Eugene Monday afternoon while coming down the river in a large sail boat as companion by his grandmother B. C. Dunn her stepmother J. A. Ward 121 years and sister Vilma Ingland and son Bob 11 years. The party started from Ward's thirty miles up the river for an all water trip to the Seattle exposition they were drifting on the broad stream when a large log struck a pile of twigs and ran away into the water and it was almost sure that they would have drowned if the water had not been swift at the point where the accident did occur.

The boy who is 80 years old six weeks younger than Ward, and pulling the oars the one turned craft but it sank before he could pull him out with great difficulty that Ward and wife saw the need of as they were poor so much

HARRIMAN SLOW TO CONVALESCCE

Rigidity of Spinal Column Said to Be Main Trouble of the Railroad King

MUNICH Aug 17.—Edward H. Harriman the railway magnate who left here Saturday for Paris probably will return to America shortly. The correspondent learns from an authoritative source that his chief ailment is a rigidity of the vertebral column. It is a little, if any better having derived no real benefit from the baths in Gastein waters. These possibly were too strong for him and in any event do not appear to have suited his case.

During his stay in Munich Harriman went out little and made no long excursions. His family frequently used the automobile which he has with him but he scarcely ever went out with them.

AMERICAN WOMEN FOND OF DRINK

GERMAN PRINCE THINKS SOCIETY MAIDS IMBIBE TOO FREELY OF COCKTAILS

NEW YORK Aug 17.—I have a profound contempt for impudent foreign noblemen who marry rich American girls merely for their money.

Prince Gunther of Schoenburg-Waldenburg said it. Lieutenant in the Germans army heir to the chieftainship of the house of Schoenburg and its vast entailed property in Saxon Bohemia, Silesia and Hungary he slipped into the country two weeks ago accompanied by his retinue in an effort to hide his identity he changed his quarters yesterday from the St Regis to the Nassau Hotel Long Beach.

Though the number of international marriages is no doubt constantly increasing they are now generally love matches the prince continued Love and not money is usually the standard now.

American women of the better classes I mean the so called Four Hundred many of whom I have met and have had an opportunity to observe drink heavily Cocktails seem to be the American society woman's favorite beverage and she can be led puttering at all hours of the day and night.

MR. AND MRS. CALVIN HAVE LEFT FOR NORTH

SAN FRANCISCO Aug 17.—E. B. Calvin vice president and general manager of the Southern Pacific Company and Mrs. Calvin both of whom have successfully recovered from attacks of appendicitis left last night for the north they will visit Portland and Seattle at which latter place they will attend the Alaska-Yukon Exposition.

Accordingly Mr. and Mrs. Calvin will travel through Idaho and Utah probably visiting Salt Lake City where they have many friends. Calvi was stricken with appendicitis June 21st. He was operated upon at the new Southern Pacific Hospital at who will return from Pennsylvania next week to coach the new team. Among those who turned out today are Captain Bill Fruzzino Charles Baum Charles Bates and Anthony Frank G. H. Beckman Lawrence Ide and Lester Siegfried.

WOMAN'S NIGHTMARE

most pass is so full of dread that the thought fills her with apprehension. There is no necessity for the reproduction of life to be either very painful or dangerous. The use of Mother's Friend prepares the system for the coming event, and it is passed without any danger. This remedy is applied externally, and has carried thousands of women through the crisis with but little suffering.

Book containing information of value to all expectant mothers mailed free.

COVE PROVED SURPRISE TO NEW YORK FANS

HYLAND AND ATTELL ARE FAVORITES IN THE BETTING IN COMING PUGILISTIC EVENTS

SPIDER COVE MADE GREAT HIT WITH THE EASTERNERS BY BEATING HARD-HITTING BANTAM

Hyland Has Been Made Slight Favorite Over Frayne; Coffroth Rustling Day and Night for September Attraction

By EDDIE SMITH.

A STORY is being told time with the boxing fan, for we surely expect something big and at this time it looks as if we were about to meet with a disappointment.

Coffroth had about made up his mind that he would be able to stage Papke and O'Brien, but now that Papke has made known that he is better suited with inducements from New York that match is in the air. O'Brien is here and willing to take a chance, whether the people here want him or not, but nothing in the shape of an opponent can be secured.

Jack Johnson is at Salt Lake telling the people of the Mormon city that Jim Jeffries is afraid of him and that he will never fight, but he has so far failed to accept the offer made him by Coffroth to fight Jack O'Brien ten rounds at his arena on the 31st of September.

Al Kaufman has been offered a match, but he, too, has taken it upon himself to get as far away from the scene of action as possible by going to the springs with Louis Blot.

It seems to me that Coffroth is overlooking a match that would prove a mighty good card and that is one that was announced at Chicago the other day—Papke McFarland and Cyclone Johnnie Thompson. If the promoter could sign that card for one of his attractions I feel that he could get a very good house.

The time is drawing very near and no matter who is to be staged the match must be made within the next few days. The North End Club is having the same trouble getting a card for the night of Labor Day. They have signed Frank Monteil, but as yet they have been unable to decide on an opponent. They also tried to get Papke, but failed. The promoters are as busy as bees, but the fighters are all shy on taking a chance with any one whom they are the least bit afraid of and this is the one reason why the matches are hard to make.

Cove Proved Find

Billy McCrane paid little attention to the spider and he trained as best he knew how, and when the night of the contest came McCrane had never seen the stronger boy. After reaching New York and the weighing in had been done the men departed for the club rooms. Everything went well; they had a good house and the preliminaries were of a high class order and the spectators were in a fine frame of mind for a good main event.

Stone entered the ring and coolly waited for his opponent, whom he had never seen up to that time. Along came Mr. Cove, and the moment that he stepped into the ring the spectators began to laugh. The idea of the long skinned spider beating their tough Little Stone was a joke. The manager rushed in to see what had happened, and when he started his eyes to the corner where Cove was seated and had one good look he made one rush for McCrane. "What have you done, Billy?" the promoter gaped in disgust. "You have brought this thing to a joke and I will get a fine roast."

McCrane Surprised

McCrane had never seen Cove stripped and when he took a good look he had to admit that things looked bad. Billy was game and he went to Cove's corner to second him. "Now be very careful, this fellow is a tough, strong fighter, and a good hitter. He will rear right at you from the jump," said poor Billy. "That's just what I like," said the spider coolly. "I'll knock him out if he does."

Joe Gens has been made the official referee of the Euclid Athletic Club of Baltimore, and is said to be making good as the third man in the ring. Joe tackled his first job last week in a bout between Sullivan and Decker, and the fans took a liking to his work. Joe and his old manager, Al Hereford, must have made up for good, for that is the club owned by Hereford.

Pete O'Brien called at this office this morning to deny the report that was given in this paper regarding his losing to Frank Frayne, father of the clever little Frankie, who beat Hyland Friday. Pete says that he is proud of his record as a pugilist, and that while he does not wish to take any credit away from Frayne, he wishes it known that he beat Frayne twice—one in three rounds and once in four rounds. Billy Delaney was seconding Frayne, and this is considered by Pete an indication that Frayne was very well thought of in those days.

The full card for the coming night of boxing at the West Oakland Club will be made up as follows: Terry Keller vs. Fred Brooks, ten rounds, main event. Three six round contests between the following well known pugilists: Jim (Young) Kenny vs. Willie Purcell, Frankie Edwards vs. Frank Burns, and Ed Carter vs. Jim O'Connor of Alaska. The date has been changed to September 26.

AFRAID OF HITCH, OWING TO WEIGHT PROBLEM IN KETCHEL-LANGFORD BOUT

NEW YORK, Aug. 17.—Training quarters have been prepared for Stanley Ketchel and when he arrives here the latter part of this week from California, he will start work at once in taking off weight for his ten round bout with Sam Langford in September.

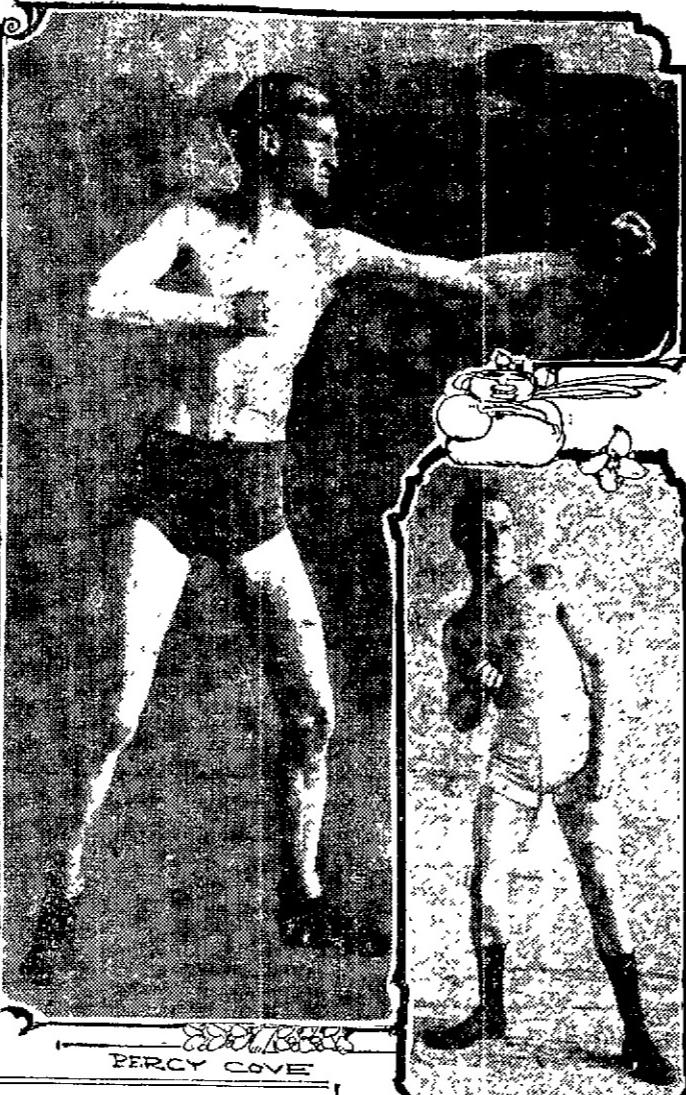

There may be a serious hitch in the arrangements, because of the matter of weight. Langford says that he will weigh about 158 pounds at 6 o'clock, which now weighs 185 pounds and as he intends to weigh at least 170 pounds when he fights Jack Johnson in October, it is now believed that he will want to go below that weight for Langford, as he would have to rebuild quickly for the Johnson fight.

The Fairmont Athletic Club insists that there will be no interference in its efforts to produce the fight here. The club is protected by a Supreme Court injunction which restrains the police from entering the building.

September Card in Air

What are the promoters going to give us on the September holidays? That is a very important question at the present

PERCY COVE and MONTE ATTELL, Who Will Mingle for Twenty Rounds at the Coliseum Friday Night for the Championship of America.

PERCY COVE
MONTE ATTELL

'RUBE' WADDELL'S WORK IS NOT UP TO EXPECTATIONS

George Edward Waddell's record for the season is 10-10. The way he is going he is averaging about 2½ victories a month. In the winter time President Jedges stated that he was confident the "Rube" would put together 35 triumphs.

When Waddell comes to grief he is generally knocked out. Here is a record of Waddell's knockouts:

April 24—Knocked out in fifth inning by Cleveland. Negro found him for five runs and nine hits in 4 1-2 innings. Final score, Cleveland 7, Browns 3.

May 10—Knocked out in ninth inning by National. With seven hits, Waddell scored three runs and had one out. Powell allowed ten hits and one run.

June 8—Knocked out in seventh inning by Yankees, allowing four runs and five hits. With Browns leading, 5-4, Peavy went to Waddell for three runs of relief.

July 4—Knocked out in eighth inning by Detroit. Tigers getting six runs and six hits, Waddell scored three runs and had one out.

July 10—Knocked out in fourth inning by Detroit. Tigers leading 5-4. Peavy in eighth inning, running 10.

June 26—Knocked out in fourth inning by Detroit. Tigers getting five runs and six hits, Waddell scored three runs and had one out.

July 4—Knocked out in fourth inning by Browns. Yankees leading 5-1. Jennings' outfit secured three runs in eighth inning. Eleven hits and one run.

July 9—Against Yankees, hurt hand in third inning. Retired in favor of Criss with score 1-1. Yankees won, 5-1.

July 10—Knocked out in fourth inning by Yankees. Waddell got three runs and was found for three runs. Bailey succeeded him and lost out in eleventh inning, 5-4.

Whitehead's Seconds Toss Sponge in Ninth

HOUGHTON, Mich., Aug. 17.—Walter Whitehead, colored, of Duluth, escaped a knockout in his ten round fight here last night with Mike Schreck of Cincinnati when his seconds threw up the sponge in the ninth round. Whitehead took the count three times in the eighth and twice in the ninth and was down and out when his seconds ended the fight.

Berger on Way Here To Get Bids for the Jeff-Johnson Fight

CHICAGO, Aug. 17.—Sam Berger, Jeffries' manager, will leave for California today to see Carl Coffroth and Tom McCrory, the western fight promoters about bids for the Jeffries-Johnson fight for the championship of the world. Hugh McIntosh, the Australian promoter, who promoted the Johnson-Burns fight at Sydney, has written Berger he will offer \$50,000 for the battle, but reserves the right to stage the fight in either Australia or America. Berger said last night Jeffries wants to fight in this country and unless McIntosh agrees to stage the fight in this country his bid will not be considered.

Hayward Tossers Find Cooper's Curves Easy

STANDING OF TRANSBAY CLUBS.

The Transbay home team in the Transbay League gained an easy victory over the visiting Fruitvale aggregation. Cooper, formerly with San Francisco in the State League, was easy for the heavy hitters of the Hayward nine, who connected with his offerings early and often. Levy twirled a steady game for the visitors. Score: 12-2.

Ray started his career late in the season of 1907 and has pitched every Sunday, with a few exceptions, up to the present and is now making a record for the Vornos who have won fourteen out of fifteen games.

A pitcher who strikes out eight or nine men is going some, and Osegueda is certainly giving a game of less than one hour, ten strike outs and has quite a few fifteen and sixteen strike out games to his credit.

Osegueda's steam and curves have certainly given the Fruitvale fans something to talk about and if proper care is taken by the fans will not doubt have something to talk about in the near future, if he can keep up his development.

Credit must also be given to his team leaders who have been playing like big league players and who are out to win in the present pennant race in the newly organized Lincoln League.

FRUITVALE ATHLETIC CLUB HOLDS MONTHLY BOXING SHOW TOMORROW NIGHT

At Fruitvale tomorrow night Lew Taylor and Terry Mustain will mix matters in what the club has announced as a fifteen-round contest. The heavyweights make up the main event of the evening and it is confidently expected by the management that the gymnasium of the club will be packed when the men step into the ring. Mustain has been made a decided favorite in the betting, but Taylor says that he fully expected to be on the short end and that he expects to fool Mr. Mustain and the spectators with his showing. Terry has had a good deal more experience than Taylor and owing to the fact that Taylor has met defeat twice during the last year is being taken as a sign of easy victory for Mustain.

The special event of the evening should prove a classy affair. In this event Jockey Bennett and Willie Canole meet, and as this pair are both willing all the time the bout should be a good one. Freddie Couture should have little trouble in beating Eddie Locan in the first preliminary.

Sol Levinson has been selected as the referee for all the events.

OSEGUEDA, VERNON PITCHER, LOSES FIRST GAME IN TWO YEARS AGAINST NEWSBOYS

BASEBALL MAGNATES IN EAST PREPARING FOR WAR; SIGN BEST PLAYERS

RAYMOND Osegueda, the young pitcher for the Vornos, now in the Lincoln League, is considerably interested in persistent reports that the American Association proposes to become an only major league circuit next year with club in Chicago, Louisville, Pittsburg, Indianapolis, Buffalo, Balt., now Brooklyn, the other Providence at Newark.

Certain men of wealth in the city have approached, so it is reported, the managers of the New York Giants and the Brooklyn Dodgers to see whether they have any interest in the new organization. It is reported that they have received no offers, but that in New York promises are held out of obtaining the balance required.

The men in the league magnates declare that they are not interested in the new players, but the fact that they are asking an early and big increase in pay signals up to many of their best players as possible indicates that they are preparing for war.

Work of Highlanders Excites Gotham Fans

The race set by the Highlanders during the last two weeks is certainly pleasing the Metropolitan fan. The work of Jack Knight at first base has caused a second to that of Orth, the third baseman, at second base on Saturday. After his long absence from the field, Orth has come back to the game and started every one, including himself, by getting three hits. Now the New York writers are nothing short of a permanent for the Stollings tribe.

Paradise Nine Defeats Orpheum Ushers 5 to 2

The Paradise nine, one of the fastest teams around the bay, defeated the Orpheum Ushers 5 to 2, Sunday, in an exciting game. The home team, however, was beaten three of the batters of the Orpheum nine out for long drives, while Hoag and McGrath also got well.

**RICH DIVORCEE
ENDED HER LIFE**
Mystery of Death of Mrs. Tom Otis Solved After Body is Sent East

**ORIGINAL
Little Louisiana Company**
OF SAN FRANCISCO
ESTABLISHED JANUARY, 1887.

CLASS H.

AUGUST 14, 1909.

LOS ANGELES, Aug. 7.—Mrs. Tom Otis, horsewoman, social favorite in Los Angeles, Pasadena and Chicago, daughter of Joseph E. La, a wealthy Chicago automobile dealer, took a deadly dose of poison with suicidal intent in her fashionable apartments here August 4, after telling her friends that she was despondent from continued illness and distress which plagued her in society.

Mrs. Otis, who was the divorced wife of Tom Otis, real estate dealer and mining operator, was found shortly after taking the poison—cyanide—in her apartment, unconscious, and was carried to a local hospital, where she died without regaining consciousness, August 8. Her remains were shipped to Chicago Aug. 9, and are now at the mortuary of Gieddicke immediately to Los Angeles, where the circumstances of her death were investigated. Yesterday when it was learned that Mrs. Otis had left note to J. Coleman of San Francisco, signifying her intention of committing suicide, the mystery which surrounded her death was solved.

Death From Poison

The coroner's office here made every attempt to withhold information that would identify the identity of Mrs. Otis. At the hospital where she was admitted before being taken from the hotel it was denied that she had taken poison with suicidal intent. Death certificate, however, which was signed by the coroner, showed that the death was the result of poison taken with suicidal intent.

At Monroe last night Coleman admitted that he had received a letter from Mrs. Otis. When asked as to its contents Coleman, who is well known in social circles, said:

"I read. The game is not worth the candle. Good by, Ada Otis."

Mrs. Otis, who is the only daughter of Joseph E. La, was born to the Odis in 1885. At one time she lived in Tucson, Arizona, where she was associated with Colonel E. Randolph in Mexican railroading. For ten years the couple lived in Tucson, but after their marriage in 1898, Pasadena, in the latter part of 1906 Mrs. Otis instituted a divorce suit against her husband.

She charged that he deserted her, had not properly supported her and had indulged too frequently in wine and card games. Her final decree was granted only a few months ago. Since the separation Mrs. Otis has traveled abroad and only recently came to Los Angeles.

MADE INSANE
BY AUTO TRIP

Excitement of Journey From San Francisco to Gilroy Renders Woman Violent

SAN JOSE, Aug. 17.—Mrs. Nancy Peers, the Oakland woman who went totally insane Sunday evening in a Chinese hotel while on her way from San Francisco to Stanford, where she expected to see her daughter, is the divorced wife of William H. Peers of Oakland. The woman was brought to a local hospital yesterday and placed in a local hospital.

Mrs. Peers is a member of the Second Day Adventists and she belongs to that portion of the cult which holds forth at the Orchards, a country home near Gilroy. These people believe in the near-to-nature religion and wear but few garments. They are supposed to take pilgrimages to Jerusalem as often as their wealth will permit.

Mrs. Peers' husband in Oakland has been notified of her condition, as has her daughter in Stanford. The woman when taken into custody had in her possession \$100 in bank notes and \$300 in gold. Mrs. Peers has several years ago been a resident of Gilroy. She has for some time been receiving treatment from Dr. Clara Shira of Gilroy.

The excitement of the automobile trip from San Francisco to Gilroy and the sight of old surroundings and the meeting of some of the members of her faith in the lower Santa Clara Valley town is believed to be the cause for turning the woman's mind.

Be sure and take a bottle of Chamberlain's Colloid Cholorine Water Remedy with you when starting on your trip this summer. It cannot be obtained on board the trains or steamers. Changes in water and climate often cause sudden attacks of diarrhea, and it is better to be prepared. Sold by Osgood's Drug Stores.

IT'S EASY TO FIND

Some Little Want Ad With a Misspelled Word.

The misspelled words will not appear in the following classifications: Situations Wanted, Male or Female; Agents Wanted; Lost and Found; Solicitors Wanted; Rooms and Board Wanted, or Houses and Rooms wanted.

Answers to be brought in or sent to THE TRIBUNE main office, Eighth and Franklin streets, and not taken at any of our other offices. Address LITTLE WAN-TAD DEPARTMENT.

The misspelled word appears only on the classified pages, and not in the display ads of the paper.

The word misspelled is self-evident, a mistake easy to find. Try again. An abbreviation is not an error. Awards made and announced in Wednesday and Sunday papers.

CURED HAY FEVER AND SUMMER GOLD.

A. S. Nusbaum, Galesville, Indiana, writes: "Last year I suffered for three months with a summer cold so distressing that it interfered with my business. I had many of the symptoms of a fever, and a doctor's prescription did not relieve my case, and I took several medicines which seemed only to aggravate it. Fortunately I had a friend named Poley's Honey and Tar. It quickly cured me. My wife has since used Poley's Honey and Tar with the same success." Sold at Wissart's drug store, corner Tenth and Washington streets.

In Washington's Plague Spots we in the low marshy bottoms of the Potowmack River, the breeding ground of malarial germs. These places are subject to fever and ague, influenza, rheumatism, lassitude, weakness and general debility, and bring suffering to death to those who contract them. But electric power never fails to destroy them and cure most of their troubles. "They are the best all-round tonic and cure for malaria I ever used," writes Dr. L. C. Long, of Louisville, S. C. Their cure Stomach, Liver, Kidney, Bladder Troubles, and will prevent Typhoid. Try them, Sir. Guaranteed by Osgood Bros.

PIEDMONT TURKISH BATHS. Salt water swim. Twenty-fourth and Oakland avenue.

STOCKHOLDERS' MEETING. The annual meeting of stockholders of the Southern Pacific and Market Co. will be held at the office of the Market Co., 11th and Washington streets, Oakland, Cal., on Saturday, 28th day of August, 1909, at 10 o'clock a.m. for the purpose of electing a Board of Directors for the ensuing year and for the transaction of such other business as may come before the meeting.

HENRY F. STARBUCK, Secretary.
